AERONAUTICS LAW^{*}

STATE AERONAUTICS ACT

PUBLIC UTILITIES CODE

Chapter 1. General Provisions and Definitions

Title of Part

21001. This part may be cited as the “State Aeronautics Act.”

Purpose

21002. The purpose of this part is to further and protect the public interest in aeronautics and aeronautical progress by the following means:

- (a) Encouraging the development of private flying and the general use of air transportation.
- (b) Fostering and promoting safety in aeronautics.
- (c) Effecting uniformity of the laws and regulations relating to aeronautics consistent with federal aeronautics laws and regulations.
- (d) Granting to a state agency powers, and imposing upon it duties, so that the state may properly perform its functions relative to aeronautics and effectively exercise its jurisdiction over persons and property, assist in the development of a statewide system of airports, encourage the flow of private capital into aviation facilities, and cooperate with and assist political subdivisions and others engaged in aeronautics in the development and encouragement of aeronautics.
- (e) Establishing only those regulations which are essential and clearly within the scope of the authority granted by the Legislature, in order that persons may engage in every phase of aeronautics with the least possible restriction consistent with the safety and the rights of others.
- (f) Providing for cooperation with the federal authorities in the development of a national system of civil aviation and for coordination of the aeronautical activities of those authorities and the authorities of this state.
- (g) Assuring that persons residing in the vicinity of airports are protected to the greatest possible extent against intrusions by unreasonable levels of aircraft noise.
- (h) Fostering and promoting the development of a stable and efficient regional air carrier system to provide access for small and rural communities to the national air transportation system consistent with federal policies favoring deregulation.
- (i) Developing, in cooperation with the private sector, airport management, local jurisdictions, federal authorities, and the general public, informational programs to increase the understanding of current air transportation issues including, but not limited to, aviation safety, planning, airport noise, airport development and management, and the role of aviation in the economic development of the state, as an integral part of the state’s transportation system.
- (j) Sponsoring or cosponsoring, with representatives of the aerospace and aviation industry, aviation educational and informational seminars which meet the needs of pilots and other members of the industry for current information on aviation safety, planning, and airport development and management.

Definitions; Effect

21003. Unless the context otherwise requires, the definitions and general provisions set forth in this chapter govern the construction of this part.

Public and Government Functions; Public Necessity

21004. The acquisition of any land or interest therein pursuant to this part, the planning, acquisition, establishment, construction, improvement, maintenance, equipment, and operation of airports and air navigation facilities, whether by the state separately or jointly with any political subdivision, and the exercise of any other powers granted to the department by this part are public and governmental functions, exercised for a public purpose, and are matters of public necessity. All land and other property and privileges acquired and used by or on behalf of the state pursuant to this part are acquired and used for public and governmental purposes as a matter of public necessity.

^{*} current as of August 2004

Effect of Part on Zoning Regulations

21005. This part shall not be construed as limiting any power of the state or a political subdivision to regulate airport hazards by zoning.

Effect of Chapter on Use of Helicopters

21006. This chapter or any other law shall not be construed as prohibiting, restricting, or permitting the prohibition of the operation or landing in populated areas of helicopters and similar aircraft capable of approximately vertical ascent and descent, subject to such reasonable rules affecting the public safety as the department may promulgate. The department shall adopt rules and regulations, effective January 1, 1989, for the conditions under which helicopters may make temporary use of a landing site.

Department

21006.5. "Department" means the Department of Transportation.

Aeronautics Commission; Division; Department

21007. Whenever the term "California Aeronautics Commission," "Division of Aeronautics," or "Department of Aeronautics" is used in any other law, it means the Department of Transportation.

Director

21008. "Director" means the Director of Transportation. Any reference in any law or regulation to the Director of Aeronautics shall be deemed to refer to the Director of Transportation.

Division

21008.3. "Division" means the Division of Aeronautics in the department.

Commission

21008.5. "Commission" means the California Transportation Commission.

Person

21009. "Person" means any individual, firm, partnership, corporation, limited liability company, company, association, joint stock association, or body politic; and includes any trustee, receiver, assignee, or other similar representative.

Political Subdivision

21010. "Political subdivision" means any county, city, city and county, public corporation, district or other political entity or public corporation of this State.

Aeronautics

21011. "Aeronautics" means:

- (a) The science and art of flight, including transportation by aircraft.
- (b) The operation, construction, repair, or maintenance of aircraft and aircraft power plants and accessories, including the repair, packing, and maintenance of parachutes.
- (c) The design, establishment, construction, extension, operation, improvement, repair, or maintenance of airports or other air navigation facilities.

Aircraft

21012. "Aircraft" means any manned contrivance used or designed for navigation of, or flight in, the air requiring certification and registration as prescribed by federal statute or regulation. Notwithstanding the foregoing provisions of this section, manned lighter-than-air balloons and ultralight vehicles as defined in the regulations of the Federal Aviation Administration (14 C.F.R. Part 103), whether or not certificated by the Federal Aviation Administration, shall not be considered to be aircraft for purposes of this part.

Airport

21013. "Airport" means any area of land or water which is used, or intended for use, for the landing and take-off of aircraft, and any appurtenant areas which are used, or intended for use, for airport buildings or other airport facilities or rights of way, and all airport buildings and facilities located thereon.

Air Navigation Facility

21014. "Air navigation facility" means any facility, other than facilities owned or operated by the United States, used, or available or designed for use, in aid of air navigation, including any structures, mechanisms, lights, beacons, markers, communicating systems, or other facilities used or useful as an aid, or constituting an advantage or convenience, to the safe taking off, navigation, and landing of aircraft, or the safe and efficient operation or maintenance of an airport.

Operation of Aircraft; Operate Aircraft

21015. "Operation of aircraft" or "operate aircraft" means the use, navigation, or piloting of aircraft in the air space over this State or upon any airport within this State.

Airman

21016. "Airman" means any individual who engages, as the person in command, or as pilot, mechanic, or member of the crew, in the navigation of aircraft while under way, and any individual who is directly in charge of the inspection, maintenance, overhauling, or repair of aircraft engines, propellers, or appliances, and any individual who serves in the capacity of aircraft dispatcher, or air traffic control-tower operator. "Airman" does not include any individual employed outside the United States, or any individual employed by a manufacturer of aircraft, aircraft engines, propellers, or appliances to perform duties as inspector or mechanic in connection therewith, or any individual performing inspection or mechanical duties in connection with aircraft owned or operated by him.

Airport Hazard

21017. "Airport hazard" means any structure, object of natural growth, or use of land, which obstructs the air space required for flight of aircraft in landing or taking off at an airport or which is otherwise hazardous to the landing or taking off.

Airway

21018. "Airway" means a route in the navigable air space over the land or waters of this State, designated by proper authority as a route suitable for air navigation.

Violations; Punishment

21019. Any person violating any of the provisions of this part, other than Section 21407.1, or any of the rules or orders issued under this part, is punishable by a fine of not more than one thousand dollars (\$1,000) or by imprisonment of not more than six months, or both.

Land

21020. "Land" includes tide and submerged lands or other lands subject to the public trust for commerce, navigation, or fisheries.

**Chapter 2. Department of Transportation
and State Aeronautics Board****Article 1. Department of Transportation****Rules and Regulations**

21204. The department may adopt, administer, and enforce rules and regulations for the administration of this part.

Statement of Estimated Revenues; Budget

21206. The department shall prepare a statement of all estimated revenues of the Aeronautics Account in the State Transportation Fund and revenues available for local subventions from any other sources for the next succeeding fiscal year, together with a statement of proposed expenditures to be made to local agencies and the University of California during the next succeeding fiscal year, or obligations to be incurred in connection therewith.

The statement shall be included in the printed fiscal year budget submitted to the Legislature. Insofar as the matters to which it pertains, it shall constitute as submitted the budget submitted to the Department of Finance pursuant to Section 13320 of the Government Code, and, as to such matters, shall be administered by the Department of Finance as the fiscal year budget of the Department of Transportation under the provisions of this section and of Article 2 (commencing with Section 13320) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code.

Any changes or modifications in the budget described in this section shall be approved by the Director of Finance. In the event, during an annual period, the budgetary amount approved and allocated for any purpose exceeds the amount actually necessary therefor, with a resultant available surplus, such surplus may be allocated to any other purpose or supplemental project upon the written approval of the Director of Finance. In administering the budget, the Director of Finance shall not limit expenditures or incurrence of obligations thereunder to quarterly, semiannual, or other periods of the fiscal year.

Noise Mitigation Projects

21207. Whenever a political subdivision owning and operating an airport constructs or implements a noise mitigation project at the airport, including, but not limited to, the installation of noise monitoring equipment at any time after the project has been included within the aeronautics program in the state transportation improvement program and prior to funding of the project, the department shall, when funding for the project becomes available, reimburse the political subdivision for the eligible costs of the project, without interest, not to exceed the amount of the funds made available to the department or the political subdivision's actual eligible costs, whichever is lower. Reimbursement under this section shall be made only if the political subdivision completes the project to the standards approved by the department including, but not limited to, bidding and contracting procedures and the project is approved by the commission. This section does not apply to any project for which state funding is not specifically made available.

Article 1.5. State Aeronautics Board

State Aeronautics Board Abolished

21215. (a) The State Aeronautics Board is hereby abolished, and the California Transportation Commission succeeds to, and is vested with, all the duties, powers, purposes, responsibilities, and jurisdiction vested in the State Aeronautics Board.

(b) Any reference in any law or regulation to the State Aeronautics Board shall be deemed to refer to the California Transportation Commission.

(c) The California Transportation Commission shall have the possession and control of all licenses, permits, leases, agreements, contracts, orders, claims, judgments, records, papers, equipment, supplies, bonds, moneys, funds, appropriations, buildings, land and other property, real or personal, held for the benefit, use, or obligation of the State Aeronautics Board.

Appeals

21216. Any person or entity injured or aggrieved by any procedure or action of the department with respect to aeronautics may appeal to the California Transportation Commission for relief, and the decision of the commission as to such matter shall, after hearing thereon, be conclusive, subject to such review as may be otherwise provided by law. This section shall not apply to any procedure or action for which a hearing pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code is specified in this part as the means for reviewing or finalizing the procedure or action.

Article 2: Powers and Duties

Recognition of Federal Authority; Intrastate Rates

21240. This state recognizes the authority of the federal government to regulate the operation of aircraft and to control the use of the airways, and nothing in this act shall be construed to give the department the power to so regulate and control safety factors in the operation of aircraft or to control use of the airways. This section does not affect the state's power to regulate the intrastate rates of common carriers by air, and such power is hereby reserved to the state.

Encouragement of Aeronautics, Airports, and Air Navigation Facilities

21241. The department shall encourage, foster, and assist in the development of aeronautics in this state and encourage the establishment of airports and air navigation facilities. It shall cooperate with and assist the federal government, political subdivisions of this state, and others in the development of aeronautics, and shall seek to coordinate their aeronautical activities.

Political subdivisions may cooperate with the department in the development of aeronautics and aeronautics facilities in this state.

Legislation; Representation of State

21242. The department may:

- (a) Draft and recommend necessary legislation to advance the interest of the state in aeronautics.
- (b) Represent the state in aeronautical matters before federal and other agencies.
- (c) Participate as plaintiff or defendant or as intervenor on behalf of the state or any political subdivision or citizen in any controversy which involves the interest of the state in aeronautics.
- (d) Assist political subdivisions and their law enforcement agencies in becoming acquainted with and enforcing the civil air regulations.

Rules, Regulations, Procedures, and Standards; Classification of Airports

21243. The department may make and amend general or special rules, regulations, and procedures and establish minimum standards, consistent with and clearly within the scope of federal legislation governing aeronautics and the rules, regulations, and standards issued thereunder. The department may, by regulation, classify airports into several reasonable classes or groups according to their facilities and the types and number of aircraft which they are capable of handling and may make and amend rules, regulations, and procedures and establish minimum standards for each separate class or group.

Temporary Rules, Regulations, Procedures, and Standards

21244. For the purpose of protecting and insuring the general public interest and safety and the safety of persons operating, using, or traveling in aircraft and developing aeronautics in this state, and after appropriate public hearings, the department may make and amend temporary general or special rules and procedures and establish temporary minimum standards consistent with this part as it deems necessary to administer this part. The department shall draft these temporary rules, procedures, and standards in the form of proposed aviation law and shall submit them to the next general session of the Legislature. These temporary rules, procedures, and standards shall not remain in effect beyond 90 days after the final adjournment of that session of the Legislature.

Rules; Copies for Public Inspection

21245. The department shall keep on file with the Secretary of State, and at its principal office, a copy of all its rules for public inspection.

Publication and Distribution of Orders, Rules, and Procedures

21246. The department shall provide for the publication and general distribution of all its orders, rules, and procedures having general effect.

Contracts

21247. The department may enter into any contracts necessary to the execution of its powers under this part. All contracts made by the department, either as the agent of the state or as the agent of any political subdivision, shall be

made pursuant to the laws of the state governing the making of like contracts. Where the planning, acquisition, construction, improvement, maintenance, or operation of any airport or air navigation facility is financed wholly or partially with federal money the department, as agent of the state or of any political subdivision, may let contracts in the manner prescribed by the federal authorities acting under the laws of the United States and any rules made thereunder.

Joint Exercise of Powers

21248. The department may exercise any of its powers under this part jointly with any political subdivision, state agency, other states or their political subdivisions, or the United States.

Conferences and Joint Hearings with Federal Agencies

21249. The department may confer or hold joint hearings with any federal agency in connection with any matter arising under this part or relating to the sound development of aeronautics.

Cooperation with Federal Agencies

21250. The department may avail itself of the cooperation, services, records, and facilities of the federal agencies in the administration and enforcement of this part. It shall cooperate with and make available to the federal agencies, its services, records, and facilities, insofar as practicable.

Administration

21251. In administering this part the department may use the facilities and services of other state agencies and political subdivisions to the utmost extent possible. These agencies and political subdivisions shall make available to the department their facilities and services.

Enforcement

21252. (a) The department, its members, the director, officers and employees of the department, and every state and peace officer charged with the enforcement of state and subordinate laws or ordinances, may enforce and assist in the enforcement of this part, the rules and orders issued under this part, and all other laws of this state relating to aeronautics. In the enforcement of such rules, orders, and laws, the director, and such officers and employees as the director may designate, shall have the authority, as public officers, to arrest without a warrant, any person who, in his presence, has violated or as to whom there is probable cause to believe has violated any of such rules, orders, or laws.

In any case in which an arrest authorized by this subdivision is made for an offense declared to be a misdemeanor, and the person arrested does not demand to be taken before a magistrate, the arresting officer may, instead of taking such person before a magistrate, follow the procedure prescribed by Chapter 5C (commencing with Section 853.6) of Title 3 of Part 2 of the Penal Code. The provisions of such chapter shall thereafter apply with reference to any proceeding based upon the issuance of a citation pursuant to this authority.

(b) There shall be no civil liability on the part of and no cause of action shall arise against any person, acting pursuant to subdivision (a) and within the scope of his authority, for false arrest or false imprisonment arising out of any arrest which is lawful or which the arresting officer, at the time of such arrest, had reasonable cause to believe was lawful. No such officer shall be deemed an aggressor or lose his right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance.

(c) The director, and such officers and employees as the director may designate, may serve all processes and notices throughout the state.

Enforcement of Part; Injunction and Other Legal Process

21253. In the name of the state, the department may enforce this part and rules and orders issued under this part by injunction or other legal process in the courts of this state.

Reports of Violations to Federal and Other State Agencies

21254. The department may report to the appropriate federal agencies and agencies of other states all proceedings instituted charging violations of Section 21407, and Sections 21409 to 21412, inclusive, and all penalties of which it has knowledge imposed upon airmen or the owners or operators of aircraft for violations of the law of this state relating to aeronautics or for violations of the rules or orders of the department.

Reports from Federal and Other State Agencies

21255. The department may receive reports of penalties and other data from agencies of the federal government and other states, and may enter into agreements with these agencies governing the delivery, receipt, exchange, and use of reports and data. The department may make the reports and data of these agencies and of the courts of this state available to any court of this state and to any officer of the state or of any political subdivision authorized to enforce the aeronautics laws by Section 21252.

Receipt and Disbursement of Funds

21256. The department may accept, receive, receipt for, disburse, and expend federal and other money, public or private, made available to accomplish in whole or in part any of the purposes of this part. All federal money accepted under this part shall be accepted and expended by the department upon the terms and conditions prescribed by the United States. In accepting federal money under this part, the department shall have the same authority to enter into contracts on behalf of the state as is granted to the department under Section 21603. The department shall deposit all money received under this section in the Special Deposit Fund in the State Treasury, to be disbursed or expended in accordance with the terms and conditions upon which it was made available.

Ownership and Operation of Aircraft

21257. The department may own and operate aircraft for use in the furtherance of its duties, employ airmen and mechanics for proper operation and maintenance of the aircraft, and insure its employees against injury or death arising from aircraft accidents incurred in the performance of their assigned duties, within the limits of appropriations for these purposes.

Department Responsibility

21258. The department shall represent the state and local agencies before the Civil Aeronautics Board and other federal agencies in all matters related to the Airline Deregulation Act of 1978 (P.L. 95-504, as amended) and the essential air service program created by that act. The department shall assist and cooperate with federal, state, and local agencies and private entities in the development of a stable and efficient regional air carrier system.

Chapter 3. Regulation of Aeronautics

Sovereignty

21401. Sovereignty in the space above the land and waters of this state rests in the state, except where granted to and assumed by the United States pursuant to a constitutional grant from the people of the state. The operation of aircraft in such space is a privilege subject to the laws of this state.

Ownership; Prohibited Use of Airspace

21402. The ownership of the space above the land and waters of this State is vested in the several owners of the surface beneath, subject to the right of flight described in Section 21403. No use shall be made of such airspace which would interfere with such right of flight; provided, that any use of property in conformity with an original zone of approach of an airport shall not be rendered unlawful by reason of a change in such zone of approach.

Lawful Flight; Flight Within Airport Approach Zone

21403. (a) Flight in aircraft over the land and waters of this state is lawful, unless at altitudes below those prescribed by federal authority, or unless conducted so as to be imminently dangerous to persons or property lawfully on the land or water beneath. The landing of an aircraft on the land or waters of another, without his or her consent, is unlawful except in the case of a forced landing or pursuant to Section 21662.1. The owner, lessee, or operator of the aircraft is liable, as provided by law, for damages caused by a forced landing.

(b) The landing, takeoff, or taxiing of an aircraft on a public freeway, highway, road, or street is unlawful except in the following cases:

(1) A forced landing.

(2) A landing during a natural disaster or other public emergency if the landing has received prior approval from the public agency having primary jurisdiction over traffic upon the freeway, highway, road, or street.

(3) When the landing, takeoff, or taxiing has received prior approval from the public agency having primary jurisdiction over traffic upon the freeway, highway, road or street.

The prosecution bears the burden of proving that none of the exceptions apply to the act which is alleged to be unlawful.

(c) The right of flight in aircraft includes the right of safe access to public airports, which includes the right of flight within the zone of approach of any public airport without restriction or hazard. The zone of approach of an airport shall conform to the specifications of Part 77 of the Federal Aviation Regulations of the Federal Aviation Administration, Department of Transportation.

Tort Liability; Injury or Death of Passengers

21404. Liability of the owner or pilot of an aircraft carrying passengers for injury or death to the passengers is determined by the rules of law applicable to torts on the land or waters of this state, arising out of similar relationships. Every owner of an aircraft is liable and responsible for death or injury to person or property resulting from a negligent or wrongful act or omission in the operation of the aircraft, in the business of the owner or otherwise, by any person using or operating the same with the permission, express or implied, of the owner.

Limitation on Liability

21404.1. (a) The liability of an owner, bailee of an owner, or personal representative of a decedent imposed by Section 21404 and not arising through the relationship of principal and agent or master and servant is limited to the amount of fifteen thousand dollars (\$15,000) for the death of or injury to one person in any one accident and, subject to the limit as to one person, is limited to the amount of thirty thousand dollars (\$30,000) for the death of or injury to more than one person in any one accident and is limited to the amount of five thousand dollars (\$5,000) for damage to property of others in any one accident.

(b) An owner, bailee of an owner, or personal representative of a decedent is not liable under this section for damages imposed for the sake of example and by way of punishing the operator of the aircraft. Nothing in this subdivision makes an owner, bailee of an owner, or personal representative immune from liability for damages imposed for the sake of example and by way of punishing him for his own wrongful conduct.

Tort Liability; Collision Damage

21405. The liability of the owner of one aircraft to the owner of another aircraft, or to operators or passengers on either aircraft, for damage caused by collision on land or in the air, is determined by the rules of law applicable to torts on land.

Careless or Reckless Operation

21407. It is unlawful for any person to operate an aircraft in the air, or on the ground or water in a careless or reckless manner so as to endanger the life or property of another. In any proceeding charging operation of aircraft in violation of this section, the court in determining whether the operation was careless or reckless shall consider the standards for safe operation of aircraft prescribed by federal statutes or regulations governing aeronautics.

Operation While Under the Influence

21407.1. (a) It is unlawful for any person, who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, to operate an aircraft in the air, or on the ground or water, or to engage in parachuting for sport.

(b) No person shall operate an aircraft in the air or on the ground or water who has 0.04 percent or more, by weight, of alcohol in his or her blood.

Consent to Chemical Testing

21407.2. (a) (1) (A) Any person who operates an aircraft in the air or on the ground or water is deemed to have given his or her consent to chemical testing of his or her blood or breath for the purpose of determining the alcoholic content of his or her blood, if lawfully arrested for any offense allegedly committed in violation of Section 21407.1 or if the officer requests chemical testing as part of any investigation of a suspected violation of state or local law. If a blood or breath test, or both, are unavailable, then paragraph (2) of subdivision (d) applies.

(B) Any person who operates an aircraft in the air or on the ground or water is deemed to have given his or her consent to chemical testing of his or her blood or urine for the purpose of determining the drug content of his or her blood, if lawfully arrested for any offense allegedly committed in violation of Section 21407.1 or if the officer requests chemical testing as part of an investigation of a suspected violation of state or local law.

(C) The testing shall be administered at the direction of a peace officer having reasonable cause to believe the person was operating an aircraft in violation of Section 21407.1 under either of the following conditions:

(i) The person is lawfully arrested.

(ii) The officer requests the person to submit to chemical testing as part of an investigation of a suspected violation of state or local law.

(D) The person shall be told that his or her failure to submit to, or the failure to complete, the required chemical testing may result in prohibition from operating an aircraft for not more than one year and, if the person is convicted of a violation of Section 21407.1, a fine, imprisonment, prohibition from operating an aircraft for not more than one year, or any combination thereof.

(2) (A) If the person is lawfully arrested for operating an aircraft under the influence of an alcoholic beverage, the person has the choice of whether the test shall be of his or her blood or breath, and the officer shall advise the person that he or she has that choice. If the person arrested either is incapable, or states that he or she is incapable, of completing the chosen test, the person shall submit to the remaining test. If a blood or breath test, or both, are unavailable, then paragraph (2) of subdivision (d) applies.

(B) If the person is lawfully arrested for operating an aircraft under the influence of any drug or the combined influence of an alcoholic beverage and any drug, the person has the choice of whether the test shall be of his or her blood, breath, or urine, and the officer shall advise the person that he or she has that choice.

(C) A person who chooses to submit to a breath test may also be requested to submit to a blood or urine test if the officer has reasonable cause to believe that the person was operating an aircraft under the influence of any drug or the combined influence of an alcoholic beverage and any drug and if the officer has a clear indication that a blood or urine test will reveal evidence of the person being under the influence. The officer shall state in his or her report the facts upon which that belief and that clear indication are based. If the person who is arrested is either incapable or states that he or she is incapable of completing a blood test, that person shall submit to and complete a urine test. If the person arrested either is incapable, or states that he or she is incapable, of completing either chosen test, the person shall submit to and complete the other remaining test.

(3) If the person is lawfully arrested for an offense allegedly committed in violation of Section 21407.1 and, because of the need for medical treatment, the person is first transported to a medical facility where it is not feasible to administer a particular test of, or to obtain a particular sample of, the person's blood, breath, or urine, the person has the choice of those tests which are available at the facility to which that person has been transported. In that event, the officer shall advise the person of those tests which are available at the medical facility and that the person's choice is limited to those tests which are available.

(4) The officer shall also advise the person that he or she does not have the right to have an attorney present before stating whether he or she will submit to a test or tests, before deciding which test or tests to take, or during administration of the test or tests chosen, and that, in the event of refusal to submit to a test or tests, the refusal may be used against him or her in a court of law.

(5) Any person who is unconscious or otherwise in a condition rendering him or her incapable of refusal is deemed not to have withdrawn his or her consent and a test or tests may be administered whether or not the person is told that his or her failure to submit to, or the noncompletion of, the test or tests may result in a fine, imprisonment, and prohibition from operating an aircraft for not more than one year. Any person who is dead is deemed not to have withdrawn his or her consent and a test or tests may be administered at the direction of a peace officer.

(b) Any person who is afflicted with hemophilia is exempt from the blood test required by this section.

(c) Any person who is afflicted with a heart condition and is using an anticoagulant under the direction of a licensed physician and surgeon is exempt from the blood test required by this section.

(d) (1) A person lawfully arrested for any offense allegedly committed while the person was operating an aircraft in violation of Section 21407.1 may request the arresting officer to have a chemical test made of the arrested person's blood or breath for the purpose of determining the alcoholic content of that person's blood, and, if so requested, the arresting officer shall have the test performed.

(2) If a blood or breath test is not available under subparagraph (A) of paragraph (1) of subdivision (a), or under subparagraph (A) of paragraph (2) of subdivision (a), or under paragraph (1) of this subdivision, the person shall submit to the remaining test in order to determine the percent, by weight, of alcohol in the person's blood. If both the blood and breath tests are unavailable, the person shall be deemed to have given his or her consent to chemical testing of his or her urine and shall submit to a urine test.

Punishment

21407.6. (a) Any person convicted under Section 21407.1 shall be punished upon a first conviction by imprisonment in the county jail for not less than 30 days nor more than six months or by a fine of not less than two hundred fifty dollars (\$250) nor more than one thousand dollars (\$1,000) or by both such fine and imprisonment.

Any person convicted under Section 21407.1 shall be punished upon a second or any subsequent conviction by imprisonment in the county jail for not less than five days nor more than one year and by a fine of not less than two hundred fifty dollars (\$250) nor more than one thousand dollars (\$1,000), without being granted probation by the court and without having the court suspend the execution of the sentence.

(b) Any person convicted under Section 21407.1 and who, when so operating an aircraft, has done any act forbidden by law or neglects any duty imposed by law in the operation of the aircraft, which act or neglect proximately causes bodily injury to any person other than the operator shall be punished by imprisonment in the state prison, or in the county jail for not less than 90 days nor more than one year and by fine of not less than two hundred fifty dollars (\$250) nor more than ten thousand dollars (\$10,000).

Authority to Prohibit Violator from Operating Aircraft

21408. For any violation of Section 21407 or 21407.1, in addition to the penalties provided by Section 21019 or 21407.6, the court may prohibit the violator from operating an aircraft within the state for a period not exceeding one year. Violation of the prohibition of the court may be treated as a separate offense under this section or as a contempt of court. Upon a plea of guilty or conviction under Section 21407 or 21407.1, the department shall cause a record of the plea or conviction and of the sentence imposed to be maintained. This section does not authorize the court or any other agency or person to take away, impound, hold, or mark any federal certificate, permit, rating, or license. The peace officer requesting that a person submit to a chemical test of the blood, breath, or urine pursuant to Section 21407.2 shall report anyone refusing to submit to the chemical test to the Federal Aviation Administration for appropriate administrative action.

Unlicensed Operation

21409. It is unlawful for any person to engage in aeronautics as an airman in the State unless he has an appropriate effective airman certificate, permit, rating, or license issued by the United States authorizing him to engage in the particular class of aeronautics in which he is engaged, if the certificate, permit, rating, or license is required by the United States.

Possession and Inspection of Certificate, License, Etc.

21410. Every airman shall keep any certificate, permit, rating, or license required for him by the United States in his personal possession when he is operating within the state. He shall present it for inspection upon the demand of any peace officer, any other officer of the state or of a political subdivision, or member, official, or employee of the department, authorized by Section 21252 to enforce the aeronautics laws, or any official, manager, or person in charge of any airport upon which the airman lands, or upon the reasonable request of any other person.

Unlicensed Aircraft

21411. It is unlawful for any person to operate, or cause or authorize to be operated, any civil aircraft within this State unless the aircraft has an appropriate effective certificate, permit, or license issued by the United States if required by the United States.

Posting Aircraft License; Inspection

21412. Any certificate, permit, or license required by the United States for an aircraft shall be carried in the aircraft at all times while the aircraft is operating in the state, shall be conspicuously posted in the aircraft where it may be readily seen by passengers or inspectors, and shall be presented for inspection upon the demand of any peace officer, any other officer of the state or of a political subdivision, or member, official, or employee of the department, authorized by Section 21252 to enforce the aeronautics laws, or any official, manager, or person in charge of any airport upon which the aircraft lands, or upon the reasonable request of any person.

Accidents; Reports; Preservation of Parts Pending Investigation

21413. The department shall report to the appropriate federal agency all accidents in aeronautics in this state of which it is informed, and shall, insofar as is practicable, preserve, protect, and prevent the removal of the component

parts of any aircraft involved in an accident being investigated by it until the federal agency institutes an investigation.

Process; Service on Nonresident or Agent

21414. (a) The use by a nonresident or his agent of an airport within this State or, if the nonresident is the owner of an aircraft, then the use with such aircraft of an airport within this State by any person with his express or implied permission, is equivalent to an appointment by such nonresident of the Secretary of State or his successor in office to be his true and lawful attorney upon whom may be served all lawful processes in any action or proceeding against said nonresident growing out of any aircraft accident, collision, or crash in this State resulting from the operation of any aircraft within this State by himself or agent, which appointment shall also be irrevocable and binding on his executor or administrator. Where the nonresident has died prior to the commencement of an action brought pursuant to this section, service of process shall be made on the executor or administrator of such nonresident in the same manner and on the same notice as is provided in the case of the nonresident. Where an action has been duly commenced under the provisions of this section by service upon a defendant who dies thereafter, the court must allow the action to be continued against his executor or administrator upon motion with such notice as the court deems proper.

(b) The acceptance of such rights and privileges or use of said airport shall be a signification of the irrevocable agreement of said nonresident, binding as well upon his executor or administrator, that any such process against him which is served in the manner herein provided shall be of the same legal force and validity as if served on said nonresident personally in this State.

(c) Service of such process shall be made by leaving a copy of the summons and complaint with a fee of two dollars (\$2) for each nonresident to be so served in the hands of the Secretary of State or in his office at Sacramento and such service shall be a sufficient service on said nonresident subject to compliance with subdivision (d) hereof.

(d) A notice of such service and a copy of the summons and complaint shall be forthwith sent by registered mail by the plaintiff or his attorney to said defendant. Personal service of such notice and a copy of the summons and complaint upon said defendant wherever found outside this State shall be the equivalent of said mailing.

(e) Proof of compliance with subsection (d) hereof shall be made in the event of service by mail by affidavit of the plaintiff or his attorney showing said mailing, together with the return receipt of the United States Post Office bearing the signature of said defendant. Such affidavit and receipt shall be appended to the original summons which shall be filed with the court from out of which such summons issued within such time as the court may allow for the return of such summons. In the event of personal service outside this State such compliance may be proved by the return of any duly constituted public officer, qualified to serve like process of and in the state or jurisdiction where the defendant is found, showing such service to have been made. Such return shall be appended to the original summons which shall be filed as aforesaid.

(f) The court in which the action is pending may order such continuances as may be necessary to afford the defendant reasonable opportunity to defend the action.

(g) The Secretary of State shall keep a record of all process so served upon him which record shall show the day and hour of service.

(h) As used in this section "nonresident" means a person who is not a resident of this State at the time the aircraft accident, collision, or crash occurs.

(i) This section shall not apply to a nonresident licensed to do business in this State.

Intoxicated Persons In or About Aircraft

21415. No person shall be in, or perform any act in connection with the maintenance or operation of, any aircraft when under the influence of intoxicating liquor.

This section does not apply to a person who is in an aircraft merely as a passenger, but this section shall not be construed to relieve any such person of criminal liability imposed by any other law for being intoxicated while in an aircraft.

Locking Door Separating Pilot Compartment from Passenger Compartment

21416. On all commercial aircraft which transport passengers for compensation or hire the door which separates the pilot compartment from the passenger compartment shall be kept locked at all times the aircraft is in a flight over this state during which passengers are being transported except:

(a) During takeoff and landing of the airplane when such door is the means of access to a required passenger emergency exit.

(b) At such times as it may be necessary to provide access to the flight crew or passenger compartments for the crew members in the performance of their duties, or to provide access for other persons authorized admission to the flight crew compartment.

The pilot of the aircraft shall be guilty of a misdemeanor if the door is not so locked.

It shall be unlawful for any person, except a member of the crew, to have in his possession in the passenger compartment at any time the aircraft is in a flight over this state during which passengers are being transported a key or other device for opening such door from the passenger side of the door.

Chapter 3.5. Instrument Flying

Legislative Intent

21501. It is the intent of the Legislature, in enacting this chapter, to provide a flying prototype aircraft cockpit instrument display system using state-of-the-art technology. This prototype display system would simplify the presently complex techniques required to operate general aviation aircraft under Instrument Flight Rules (IFR). During the course of this prototype aircraft instrument display system project, the study team shall also determine potential applications of video display technology to other modes of transportation, including, but not limited to, the following:

- (a) Electronic mapping and route guidance for highway travel.
- (b) Route guidance for highway maintenance vehicles.
- (c) Automated vehicle control for future automated highways.

Development of Computerized Instrument Display

21502. The department shall collaborate with the University of California, NASA Ames Research Center, and private sector entities in the development and implementation of a computerized cockpit instrument display for general aviation aircraft. The department shall provide an oversight role in the research and development work which will be conducted at the Institute of Transportation Studies at the University of California. This project shall commence upon the availability of sufficient resources to carry out the purposes of this chapter.

Development Process

21502.1. In carrying out the intent of this section, the study team shall do all of the following:

- (a) Identify appropriate technology for the cockpit display and to establish a consortium of public and private sector participants to carry out the required research and development.
- (b) Explore funding opportunities available through the California Competitive Technology Program or other state and federal public funding sources.
- (c) Monitor and evaluate the in-flight performance of the cockpit instrument display in all weather conditions, its practical application in general aviation, acceptance by pilots, and potential impact on the air traffic control system.
- (d) Develop protocol for certification by the Federal Aviation Administration.

Chapter 3.7. Wire Strike Education and Prevention

Legislative Intent

21504. The Legislature finds and declares as follows:

- (a) Representatives from the aviation community, electric utility industry, and government agencies voluntarily convened a working group in July 1992 to develop a comprehensive program to improve low-level flight safety throughout California.
- (b) The working group found that the prevention of aircraft wire strikes and losses through (1) pilot education and awareness and (2) selective marking of those wires and supporting structures that present a hazard to low-level flight safety are equally important to improving low-level flight safety throughout the state.
- (c) The working group developed criteria for marking selected wires and supporting structures based upon visibility and likelihood of aircraft activity, which now must be evaluated in the field.
- (d) It is, therefore, the intent of the Legislature in enacting this chapter to implement recommendations of the working group to undertake a pilot education and awareness program and to evaluate the criteria for marking selected wires and supporting structures in the field.

Pilot Awareness Program

21505. (a) The Division of Aeronautics, in cooperation with the aviation industry and the electric utility industry and in consultation with the Federal Aviation Administration, shall coordinate and disseminate information provided by the working group to pilots to increase awareness of wire hazards and to communicate techniques for identifying and avoiding wires.

(b) For purposes of coordinating and disseminating the information provided to the division by the working group pursuant to subdivision (a), every electrical corporation and publicly owned electrical utility in this state which serves 250,000 or more customers shall pay a one-time fee in a sufficient amount so that the total of all fees collected does not exceed one hundred thousand dollars (\$100,000). The fee shall be in the proportion that each utility's total miles of transmission line greater than 110 kilovolts bears to the total miles of transmission line greater than 110 kilovolts statewide.

(c) All fees collected pursuant to subdivision (b) shall be deposited in the Aeronautics Account in the State Transportation Fund to be continuously appropriated to the Department of Transportation for the purposes set forth in subdivision (a).

Criteria for Evaluating Wires

21506. (a) *It is the intent of the Legislature in enacting this section to provide a procedure to evaluate criteria used in determining whether wires and supporting structures should be marked.*

(b) *Any person may request an electrical corporation or a publicly owned electrical utility which serves 250,000 or more customers to mark a wire or supporting structure.*

(c) *In response to such a request, the utility shall consider the following criteria: the visibility of the wire or supporting structure and the likelihood of aircraft activity at the level of the wire or structure.*

(d) *The utility shall notify the requester within 90 days of the request whether the wire or supporting structure will be marked.*

(e) *If the utility determines that the line or supporting structure should not be marked, the utility shall notify the requester that he or she may submit to the Division of Aeronautics the issue of whether the wire or supporting structure should be marked considering the criteria in subdivision (c). Within 90 days of the request, the division shall provide its recommendation to the utility on this issue.*

(f) *The division shall be reimbursed at a rate not to exceed one thousand dollars (\$1,000) for each recommendation provided to a utility pursuant to subdivision (e). Reimbursement shall be made by the utility to whom the recommendation is made. Reimbursements shall be deposited in the Aeronautics Account in the State Transportation Fund, and shall be continuously appropriated to the Department of Transportation for purposes of subdivision (e).*

(g) *The electric utility industry, in cooperation with the aviation community, shall prepare and submit to the Division of Aeronautics on or before December 31, 1995, a report describing the results of the efforts to evaluate criteria for marking selected wires and supporting structures.*

(h) *This section shall remain in effect only until January 1, 1996, and as of that date is repealed, unless a later enacted statute which becomes effective on or before January 1, 1996, deletes or extends the date on which it is repealed.*

[Note: Section 21506 was repealed by the Statutes of 1993, chapter 1009 (A.B. 1017), § 1, operative Jan. 1, 1996.]

Cost Recovery

21507. All costs incurred by an electrical corporation pursuant to this chapter shall be deemed reasonable by the commission and shall be fully recoverable through rates.

Chapter 4. Airports and Air Navigation Facilities

Article 1. Assistance to Political Subdivisions

Engineering and Technical Services

21601. The department may make available its engineering and other technical services, with or without charge, to any political subdivision or person desiring them in connection with the planning, acquisition, construction, improvement, maintenance, or operation of airports or air navigation facilities, subject to rules promulgated by the department.

Financing

21602. (a) Subject to the terms and within the limits of special appropriations made by the Legislature, the department may render financial assistance by grant or loan, or both, to political subdivisions jointly, in the planning, acquisition, construction, improvement, maintenance, or operation of an airport owned or controlled, or to be owned or controlled, by a political subdivision or subdivisions, if the financial assistance has been shown by public hearing to be appropriate to the proper development or maintenance of a statewide system of airports. Financial assistance may be furnished in connection with federal or other financial aid for the same purpose.

(b) Notwithstanding subdivision (a) of Section 21681, a city or county designated by the Airport Land Use Commission is eligible to compete for funds held in the Aeronautics Account in the State Transportation Fund on behalf of any privately owned, public use airport that is included in an airport land use compatibility plan. However, the city or county shall be eligible to compete for the funds only when zoning on the parcel is tantamount to a taking of all reasonable uses that might otherwise be permitted on the parcel. The eligible airport and aviation purposes are limited to those specified in paragraphs (4), (5), (6), (9), and (14) of subdivision (f) of Section 21681, and, further, any capital improvements or acquisitions shall become the property of the designated city or county. Matching funds pursuant to subdivision (a) of Section 21684 may include the in-kind contribution of real property, with the approval of the department.

(c) Any grant of funds held in the Aeronautics Account in the State Transportation Fund on behalf of any privately owned airports shall contain a covenant that the airport remain open for public use for 20 years. Any grant made to a city or county on behalf of a privately owned airport shall contain a payback provision based upon existing market value at the time the private airport ceases to be open for public use.

(d) Upon request, California Aid to Airports Program (CAAP) projects included within the adopted Aeronautics Program, may be funded in advance of the year programmed, with the concurrence of the department, in order to better utilize funds in the account.

(e) There is, in the Aeronautics Account in the State Transportation Fund, a subaccount for the management of funds for loans to local entities pursuant to this chapter. All funds for airport loans in the Special Deposit Fund are hereby transferred to the subaccount. With the approval of the Department of Finance, the department shall deposit in the subaccount all money received by the department from repayments of and interest on existing and future airport loans, including, but not limited to, the sums of five hundred forty thousand dollars (\$540,000) in repayments from the General Fund due in July 1987, and July 1988, and may, upon appropriation, transfer additional funds from the Aeronautics Account in the State Transportation Fund to the subaccount as the department deems appropriate. Interest on money in the subaccount shall be credited to the subaccount as it accrues.

(f) Notwithstanding Section 13340 of the Government Code, the money in the subaccount created by subdivision (e) is hereby continuously appropriated to the department without regard to fiscal years for purposes of loans to political subdivisions for airport purposes.

Agent for Political Subdivisions; Contracts; Handling of Funds

21603. Upon the request of any political subdivision or political subdivisions acting jointly, the department may act as agent in accepting, receiving, receipting for, and disbursing federal money, and other money public or private, made available to finance, in whole or in part, the planning, acquisition, construction, improvement, maintenance, or operation of a public airport or air navigation facility. The department may act as agent in contracting for and supervising the planning, acquisition, construction, improvement, maintenance, or operation. Any political subdivision may designate the department as its agent for these purposes.

The department as principal on behalf of the state, and any political subdivision on its own behalf, may enter into any contracts with each other, the United States, or any person, which may be required in connection with a grant or loan of federal money for public airport or air navigation facility purposes.

All federal money accepted under this section shall be accepted and transferred or expended by the department upon such terms and conditions as are prescribed by the United States. All money received by the department pursuant to this section shall be deposited in the Special Deposit Fund in the State Treasury, to be disbursed or expended in accordance with the terms and conditions upon which it was made available.

Airport Closing Procedures

21605. No proprietor of any permitted airport which is open to the public and has received public funds shall close or suspend operation of the airport, or close an existing runway or taxiway except on a temporary basis for inspection, maintenance, construction, or emergency purposes, without notifying the department in writing 60 days

prior to the intended closure or suspension of operations. On its own motion or upon the request of an affected or interested person, the department may conduct a public hearing to determine the impact of the intended closure or suspension of operations, both economically and on the entire state air transportation system. The department may take appropriate action to assist the proprietor in keeping the airport operational and open for public use.

Article 2. State Airports and Air Navigation Facilities

Establishment; Planning; Construction

21631. From appropriations or other money made available for the purpose, the department, on behalf of and in the name of the state, may plan, establish, construct, enlarge, improve, maintain, equip, operate, regulate, and protect airports and air navigation facilities, either within or without the state, including the construction, installation, equipment, maintenance, and operation at the airports of buildings and other facilities for the servicing of aircraft or for the comfort and accommodation of air travelers.

Acquisition of Existing Facilities

21632. (a) The department may also acquire existing airports and air navigation facilities, but it shall not acquire any airport or air navigation facility owned or controlled by a political subdivision of this or any other state without the consent of the political subdivision.

(b) Whenever an airport owned or operated by the United States in this state ceases to be so owned or operated, the department, in consultation with local and regional transportation planning agencies, may evaluate the present and future need for the airport in the state's public-use airport system, including the need for both the transportation of people and goods. The purpose of the evaluation is to determine aviation needs and does not eliminate any requirement of the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code.

(c) Prior to finalizing the evaluation, the department shall submit a copy of its report to the commission for review and comment. The commission shall complete its review and forward any comments to the department not later than 45 days after receiving the evaluation.

(d) Upon completion of its evaluation, the department may make a recommendation to the Legislature, the commission, the affected local agencies, and the appropriate federal agency for the airport's ownership and type of operation as a public-use airport, if the department determines that the airport would be of significant benefit to the state's airport system. It is the intent of the Legislature that the department, in making its recommendation, give priority for ownership and operation of these public-use airports to a local political subdivision or subdivisions acting jointly.

(e) Notwithstanding Section 21606, if a political subdivision or subdivisions acting jointly notify the department of their intentions to prepare a reuse plan for the airport, and simultaneously apply to the Federal Aviation Administration for a federal grant to develop an airport master plan for the airport, the department shall not make its recommendation pursuant to subdivision (d). If the department's evaluation determines that the airport would be of significant benefit to the state's airport system, and the political subdivision or subdivisions acting jointly fail to convert the federal airport to a civil public-use airport in accordance with the department's evaluation within five years of notification to the department, or fail to evidence substantial progress toward that purpose as determined by the department, then the department may take action in accordance with subdivision (f).

(f) If the department determines the airport is of present or future benefit to the state's public-use airport system, and no political subdivision applies to the appropriate federal agency to acquire or operate the airport, or has notified the department of its intention to prepare a reuse plan for the airport and thereafter fails to act upon its application pursuant to subdivision (e), the department may, subject to subdivision (g), assist in the formation of a public entity to own and operate the airport which shall be representative of political subdivisions in the area which surrounds and is served by the airport, as determined by the department. If established, the owning and operating entity may, subject to subdivision (g), prepare and submit an application to the appropriate federal agency to acquire or operate, or acquire and operate, the airport as a public airport.

(g) Notwithstanding subdivision (f), if any political subdivision has previously applied to the appropriate federal agency to acquire and operate the airport as a public airport, has completed all required environmental and fiscal evaluations, and subsequently withdrew its application prior to December 31, 1988, the department shall not file any application to acquire or operate the airport or assist in the formation of a public entity to own and operate the airport.

Acquisition of Real or Personal Property

21633. For the purposes of this article, the department, by purchase, gift, devise, lease, condemnation, or otherwise, may acquire real or personal property, or any interest therein, including any property described in Section 21652.

Disposal of Property

21636. The department may dispose of any property, airport, air navigation facility, or portion or interest, acquired pursuant to this article, by sale, lease, or otherwise. The disposal shall be in accordance with the laws of this state governing the disposition of other state property, except that in the case of disposals to any political subdivision or government or the United States for aeronautical purposes, the disposal may be effected in the manner and upon the terms the department deems in the best interests of the state.

Contracts and Leases for Operation

21637. In operating an airport or air navigation facility owned or controlled by the state, the department may enter into contracts, leases, and other arrangements for a term not exceeding 20 years with any person, granting the privilege of using or improving the airport or air navigation facility or space therein for commercial purposes, conferring the privilege of supplying goods, commodities, things, services, or facilities at the airport or air navigation facility, or making available services to be furnished by the department or its agents at the airport or air navigation facility. In each case the department may establish the terms and conditions and fix the charges, rentals, or fees for the privileges or services, which shall be reasonable and uniform for the same class of privilege or service and shall be established with regard to the property and improvement used and the expenses of operation to the state. In no case shall the public be deprived of its rightful, equal, and uniform use of the airport, air navigation facility, or portion of either. The department shall grant no exclusive privilege for the sale or delivery of gasoline or other petroleum products.

Lease of Airports

21638. The department shall call for bids for the operation of any state-owned airport and shall lease the airport for a term not to exceed five years to the highest qualified bidder or bidders. No person shall be granted any authority to operate the airport other than as a public airport or to enter into any contracts, leases, or other arrangements in connection with the operation of the airport which the department might not have undertaken under Section 21637. The state may operate an airport only if no acceptable bid is received.

Exclusive Right for Use Prohibited

21639. The department shall grant no exclusive right for the use of any airport or air navigation facility under its jurisdiction. This section shall not be construed to prevent the making of contracts, leases, and other arrangements pursuant to this article.

Lien for Charges; Enforcement

21640. To enforce the payment of any charges for repairs, improvements, storage, or care of any personal property by the department or its agents in connection with the operation of an airport or air navigation facility owned or operated by the state, the state has a lien on the property, which is enforceable by the department as provided by law.

Flying or Releasing Balloon, Kite or Rocket Near Airport as Misdemeanor

21646. It shall be a misdemeanor for any person to release or fly or cause to be released or flown, within five miles of any airport, any moored balloon, kite, unmanned rocket, or unmanned free balloon which might be ingested by an aircraft engine or might cause a pilot's view of the airport and zone approach to be obstructed, or which could be used to suspend an object capable of endangering airborne aircraft or impairing a pilot's vision.

Article 2.5. Non-Public Use Airports

Airport Defined

21650. "Airport" for the purposes of this article means an airport not open to the general public.

Airport Marks; Federal Aviation Administration Standards

21650.1. An airport shall be marked as required by rule of the department with letters or symbol selected by the department to designate that the airport is not open to the general public. In selecting the letters or symbol, the department shall be guided by letters or symbols currently in use by the Federal Aviation Administration for similar or comparable purposes.

Permit; Application and Receipt Under Article 3

21650.2. Nothing shall prevent an airport from applying for and receiving a permit pursuant to Article 3 (commencing with Section 21661) of this chapter.

Article 2.6. Hazard Elimination; Flight Disturbance

Eminent Domain

21652. (a) Any person authorized to exercise the power of eminent domain for airport purposes may acquire by purchase, gift, devise, lease, condemnation, or otherwise:

(1) Any property necessary to permit the safe and efficient operation of the airport, or to permit the removal, elimination, obstruction-marking, or obstruction-lighting of airport hazards, or to prevent the establishment of airport hazards.

(2) Airspace or an easement in such airspace above the surface of property where necessary to permit imposition upon such property of excessive noise, vibration, discomfort, inconvenience, interference with use and enjoyment, and any consequent reduction in market value, due to the operation of aircraft to and from the airport.

(3) Remainder property underlying property taken pursuant to paragraph (2), where permitted by Section 1240.410 of the Code of Civil Procedure.

(b) As used in this section, "property" includes real and personal property and any right or interest therein, whether within, beyond, adjacent to, or in the vicinity of, the boundaries of an airport or airport site, and, by way of illustration and not by way of limitation, includes air rights, airspace, air easements, and easements in airport hazards.

Removal of Hazards

21653. Any person authorized to exercise the power of eminent domain for airport purposes may provide, by purchase, gift, devise, lease, condemnation, or otherwise, for the removal or relocation of any airport hazard or the removal or relocation of all facilities, structures, and equipment that may interfere with the location, expansion, development, or improvement of the airport and other air navigation facilities or with the safe approach thereto and takeoff therefrom by aircraft. Any person acting under authority of this section shall pay the cost of such removal or relocation.

Article 2.7. Regulation of Obstructions

Proposed Site for Construction of State Building Within Two Miles of Airport Boundary

21655. Notwithstanding any other provision of law, if the proposed site of any state building or other enclosure is within two miles, measured by air line, of that point on an airport runway, or runway proposed by an airport master plan, which is nearest the site, the state agency or office which proposes to construct the building or other enclosure shall, before acquiring title to property for the new state building or other enclosure site or for an addition to a present site, notify the Department of Transportation, in writing, of the proposed acquisition. The department shall investigate the proposed site and, within 30 working days after receipt of the notice, shall submit to the state agency or office which proposes to construct the building or other enclosure a written report of the investigation and its recommendations concerning acquisition of the site.

If the report of the department does not favor acquisition of the site, no state funds shall be expended for the acquisition of the new state building or other enclosure site, or the expansion of the present site, or for the construction of the state building or other enclosure, provided that the provisions of this section shall not affect title to real property once it is acquired.

Permit for Extension of Structure More Than 500 Feet Above Ground

21656. No person shall erect or add to the height of any structure within the boundaries of this state which will result in a structure that extends more than 500 feet above the ground on which such structure rests until a permit therefor has been issued for such purpose by the department. This section is not applicable to the construction of any structure if the Federal Communications Commission is required to approve the height of the structure or if the height of the structure is required to be approved under the Federal Aviation Act of 1958 (Public Law 85-726; 72 Stat. 731).

Refusal to Issue Permit; Request for Hearing

21657. The department may refuse issuance of a permit under Section 21656 if it determines that the erection of or addition to a structure would obstruct the airspace overlying the state so as to create an unsafe condition for the flight of aircraft.

Any person denied a permit shall, upon request, be granted a hearing by the department to determine whether a permit shall be issued. The hearing shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Construction of Utility Pole or Line in Vicinity of Aircraft Landing Area

21658. No public utility shall construct any pole, pole line, distribution or transmission tower, or tower line, or substation structure in the vicinity of the exterior boundary of an aircraft landing area of any airport open to public use, in a location with respect to the airport and at a height so as to constitute an obstruction to air navigation, as an obstruction is defined in accordance with Part 77 of the Federal Aviation Regulations, Federal Aviation Administration, or any corresponding rules or regulations of the Federal Aviation Administration, unless the Federal Aviation Administration has determined that the pole, line, tower, or structure does not constitute a hazard to air navigation. This section shall not apply to existing poles, lines, towers, or structures or to the repair, replacement, or reconstruction thereof if the original height is not materially exceeded and this section shall not apply unless just compensation shall have first been paid to the public utility by the owner of any airport for any property or property rights which would be taken or damaged hereby.

Hazards Near Airports Prohibited

21659. (a) No person shall construct or alter any structure or permit any natural growth to grow at a height which exceeds the obstruction standards set forth in the regulations of the Federal Aviation Administration relating to objects affecting navigable airspace contained in Title 14 of the Code of Federal Regulations, Part 77, Subpart C, unless a permit allowing the construction, alteration, or growth is issued by the department.

(b) The permit is not required if the Federal Aviation Administration has determined that the construction, alteration, or growth does not constitute a hazard to air navigation or would not create an unsafe condition for air navigation. Subdivision (a) does not apply to a pole, pole line, distribution or transmission tower, or tower line or substation of a public utility.

(c) Section 21658 is applicable to subdivision (b).

Refusal to Issue Permit; Request for Hearing

21660. The department may refuse issuance of a permit under Section 21659 if it determines that the construction or alteration of the structure or growth of the natural growth would constitute a hazard to air navigation or create an unsafe condition for air navigation.

Any person denied a permit shall, upon request, be granted a hearing by the department to determine whether a permit shall be issued. The hearing shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Article 3. Regulation of Airports

Exemptions

21661. This article does not apply to any temporary seaplane landing site, ultralight vehicle flightpark, or to airports owned or operated by the United States. To the extent necessary, the department may exempt any other class of airports, pursuant to a reasonable classification or grouping, from any rule or requirement thereof, adopted pursuant

to this article, if it finds that its application would be an undue burden on the class and is not required in the interest of public safety.

This section shall become operative on January 1, 1989.

City Council or Board of Supervisors and ALUC Approvals

21661.5. No political subdivision, any of its officers or employees, or any person may submit any application for the construction of a new airport to any local, regional, state, or federal agency unless the plan for such construction is first approved by the board of supervisors of the county, or the city council of the city, in which the airport is to be located and unless the plan is submitted to the appropriate commission exercising powers pursuant to Article 3.5 (commencing with Section 21670) of Chapter 4 of Part 1 of Division 9, and acted upon by such commission in accordance with the provisions of such article.

Submission of Plan for Expansion or Enlargement of Airport

21661.6. (a) Prior to the acquisition of land or any interest therein, including tide and submerged lands or other lands subject to the public trust for commerce, navigation, or fisheries, by any political subdivision for the purpose of expanding or enlarging any existing publicly owned airport, the acquiring entity shall submit a plan of that expansion or enlargement to the board of supervisors of the county, or the city council of the city, in which the property proposed to be acquired is located.

(b) The plan shall show in detail the airport-related uses and other uses proposed for the property to be acquired.

(c) The board of supervisors or the city council, as the case may be, shall, upon notice, conduct a public hearing on the plan, and shall thereafter approve or disapprove the plan.

(d) Upon approval of the plan, the proposed acquisition of property may begin.

(e) The use of property so acquired shall thereafter conform to the approved plan, and any variance from that plan, or changes proposed therein, shall first be approved by the appropriate board of supervisors or city council after a public hearing on the subject of the variance or plan change.

(f) The requirements of this section are in addition to any other requirements of law relating to construction or expansion of airports.

Approval of Sites; Issuance of Permits; Charges

21662. The department shall have the authority to issue airport site approval permits, amended airport site approval permits, airport permits, and amended airport permits. No charge shall be made for the issuance of any permit.

Emergency Service Helicopters

21662.1. (a) At or as near as practical to the site of a medical emergency and at a medical facility, an officer authorized by a public safety agency may designate an area for the landing and taking off of an emergency service helicopter, in accordance with regulations established not later than January 1, 1989, pursuant to Section 21243.

(b) "Public safety agency" means any city, county, state agency, or special purpose district authorized to arrange for emergency medical services.

Emergency Flights for Medical Purposes

21662.4. (a) Emergency aircraft flights for medical purposes by law enforcement, fire fighting, military, or other persons who provide emergency flights for medical purposes are exempt from local ordinances adopted by a city, county, or city and county, whether general law or chartered, that restrict flight departures and arrivals to particular hours of the day or night, that restrict the departure or arrival of aircraft based upon the aircraft's noise level, or that restrict the operation of certain types of aircraft.

(b) As used in this section, "emergency aircraft flights for medical purposes" are those flights in which undue delay would threaten a patient's life. "Emergency aircraft flights for medical purposes" include, but are not limited to, flights for the transportation of all of the following:

(1) Patients accompanied by licensed or certificated medical attendants such as paramedics, nurses, physicians, and respiratory therapists.

(2) Surgical transplant teams for the purpose of procuring human organs for reimplantation in recipients.

(3) Organ procurement agency coordinators responding to a potential donor.

(4) Temporarily viable human organs such as a heart, liver, lungs, kidneys, and pancreas, and human tissue, blood, or blood components.

(5) Human tissue and blood samples for clinical testing to determine compatibility between a donor and a recipient.

(6) Mechanical adjuncts or biological replacements for human organs.

(7) Medical equipment and supplies.

“Emergency aircraft flights for medical purposes” do not include the transportation of medical personnel to attend seminars, conferences, or speaking appearances in which undue delay would not jeopardize any patient’s medical condition.

(c) Written information concerning the emergency shall be submitted to the airport proprietor for all emergency aircraft flights within 72 hours prior or subsequent to the departure or arrival of the aircraft. For all emergency aircraft flights for medical purposes, the information shall include the patient’s name and address, the names of medical attendants or personnel and the discipline in which they are licensed or hold a certificate to practice, a signed statement by the attending physician specifying that a medical emergency was involved, the requesting medical facility or agency, the intended destination, the type and registration number of the aircraft, and the names of all flight crew members.

This subdivision does not apply to emergency aircraft flights for medical purposes by law enforcement, fire fighting, or military personnel.

(d) Any airport that incurs additional expenses in order to accommodate the arrival or departure of emergency aircraft flights for medical purposes may charge the patient on whose behalf the flight is made, or any organization or entity which has volunteered to reimburse the airport, for those expenses.

(e) For emergency aircraft flights for medical purposes, when two airports are located in the same geographical area, and one of the airports is a “closed” or restricted airport, the Legislature encourages the use of the “open” or unrestricted airport when feasible, rather than using the “closed” or restricted airport.

(f) When leasing aircraft for flights for emergency medical purposes, the Legislature encourages the use, when feasible, of aircraft which comply with local noise ordinances.

Helicopters in Proximity to Certain Schools Prohibited

21662.5. Notwithstanding Section 21006 or Section 21661 or any other provision of law to the contrary, no helicopter may land or depart in any area within 1,000 feet, measured by air line, of the boundary of any public or private school maintaining kindergarten classes or any classes in grades 1 through 12, without approval of the department or by a public safety agency designated by the department, unless the landing or departure takes place at a permitted permanent heliport, or is a designated emergency medical service landing site.

Before approval of the landing or departure of a helicopter pursuant to this section, all schools within the specified area shall be notified by the department or public safety agency of the application and shall have 15 days after the notice in which to demand a public hearing. The public hearing shall be held at a location in the immediate vicinity of the landing or departure site. The department or public safety agency shall not grant approval pursuant to this section unless it has first found that helicopter operations at the proposed site can be conducted in a safe manner, and in accordance with criteria established by the department.

This section shall not prevent the governing body of any city or county from enacting ordinances or regulations imposing restrictions equal to or greater than those imposed by this section.

Operation Without Permit

21663. It is unlawful for any political subdivision, any of its officers or employees, or any person to operate an airport unless an appropriate airport permit required by rule of the department has been issued by the department and has not subsequently been revoked.

Approval of Sites; Application

21664. Any political subdivision or person planning to construct, establish, or expand an airport shall apply for the appropriate permit from the department prior to the construction, establishment or expansion. The application shall set forth the location of all highways, railways, wires, cables, poles, fences, schools, residential areas and places of public gathering, and any other information as may be required by the rules and regulations of the department. Whenever an airport owned or operated by the United States ceases to be so owned or operated, any political subdivision or person desiring or planning to own or operate the airport shall apply to the department in compliance with the provisions of this article. If the airport holds a permit issued by the department, the application shall be confined to consideration of the matters enumerated in subdivision (e) of Section 21666.

Amended Airport Permits; Airport Expansion Defined

21664.5. (a) An amended airport permit shall be required for every expansion of an existing airport. An applicant for an amended airport permit shall comply with each requirement of this article pertaining to permits for new airports. The department may by regulation provide for exemptions from the operation of this section pursuant to Section 21661, except that no exemption shall be made limiting the applicability of subdivision (e) of Section 21666, pertaining to environmental considerations, including the requirement for public hearings in connection therewith.

(b) As used in this section, "airport expansion" includes any of the following:

(1) The acquisition of runway protection zones, as defined in Federal Aviation Administration Advisory Circular 150/1500-13, or of any interest in land for the purpose of any other expansion as set forth in this section.

(2) The construction of a new runway.

(3) The extension or realignment of an existing runway.

(4) Any other expansion of the airport's physical facilities for the purpose of accomplishing or which are related to the purpose of paragraph (1), (2), or (3).

(c) This section does not apply to any expansion of an existing airport if the expansion commenced on or prior to the effective date of this section and the expansion met the approval, on or prior to that effective date, of each governmental agency that required the approval by law.

Issuance of Permits; Requirements; Conditions

21666. The department shall issue a permit if it is satisfied that all of the following requirements have been met:

(a) The site meets or exceeds the minimum airport standards specified by the department in its rules and regulations, provided, however, that the department may modify its minimum airport standards when issuing a permit if it is satisfied that the airport will conform to minimum standards of safety.

(b) Safe air traffic patterns have been established for the proposed airport and for all existing airports and approved airport sites in its vicinity.

(c) The zone of approach of the airport has been engineered in conformity with the provisions of Section 21403, the documents relating thereto are available for public inspection.

(d) The department when issuing a permit may impose reasonable conditions which it deems necessary to effectuate the purposes of this article.

(e) The advantages to the public in selection of the site of a proposed new airport outweigh the disadvantages to the environment or, in the case of an amended permit, the advantages to the public of the proposed airport expansion outweigh the disadvantages to the environment. Environmental considerations include but are not limited to noise, air pollution, and the burden upon the surrounding area caused by the airport or airport expansion, including but not limited to, surface traffic and expense. The standards by which noise considerations are weighed shall be the level of noise acceptable to a reasonable person residing in the vicinity of the airport. The regulations adopted by the department pursuant to Section 21669 may be considered in determining such level of noise.

Each permit issued by the department shall set forth any conditions imposed thereon, and any modification of the general minimum airport standards prescribed by the department relative to such airport or airport site.

The department may refuse to issue a permit under this article if it determines that the requirements of this section have not been met. Any person denied a permit shall, upon request, be granted a hearing by the department to determine whether the permit should be issued.

Revocation of Permit; Grounds

21668. The department may revoke any airport permit if it determines that any of the following conditions are present:

(a) There has been an abandonment of a site or an airport.

(b) There has been a failure within the time prescribed to develop the site as an airport or to comply with the conditions of the approval as set forth in the permit.

(c) The airport or site no longer conforms to the minimum airport standards prescribed by the department, or no longer complies with the conditions imposed in the airport permit or site approval.

(d) The owner or operator of a permitted airport has failed to comply with any rule or regulation of the department.

(e) The site may no longer be safely used by the general public because of a change in physical or legal conditions either on or off the airport site.

The department shall not revoke a permit under this section without prior notice or opportunity for hearing, unless the department determines in writing that public safety considerations require a summary revocation. In this event, any person aggrieved by the action of the department shall, upon request, be granted a hearing by the department to determine whether the revocation shall remain in effect.

Suspension of Operation

21668.2. In lieu of revoking an airport permit pursuant to Section 21668, the department may suspend any airport permit, or may require suspension of operations of a portion of an airport, and such suspension shall remain in effect until the department determines that the conditions requiring the suspension no longer exist.

The department shall not order a suspension under this section without prior notice or opportunity for hearing, unless the department determines in writing that public safety considerations require a summary suspension. In this event, any person aggrieved by the action of the department shall, upon request, be granted a hearing by the department to determine whether the suspension shall remain in effect.

Adoption of Noise Standards

21669. The department shall adopt noise standards governing the operation of aircraft and aircraft engines for airports operating under a valid permit issued by the department to an extent not prohibited by federal law. The standards shall be based upon the level of noise acceptable to a reasonable person residing in the vicinity of the airport.

Existing Residential Conversion

21669.1. (a) Land use conversion involving existing residential communities shall generally be considered the least desirable action for achieving compliance with noise standards regulations adopted by the Department of Transportation pursuant to Section 21669.

(b) Nothing in this section creates a private right of action in any civil litigation.

(c) This section is declaratory of existing regulations of the department.

Guidelines

21669.2. In its deliberations, the department shall be governed by the following guidelines:

(a) Statewide uniformity in standards of acceptable airport noise need not be required, and the maximum amount of local control and enforcement shall be permitted.

(b) Due consideration shall be given to the economic and technological feasibility of complying with the standards promulgated by the department.

Effective Date of Regulations

21669.3. Any regulations designed to establish a noise monitoring program at an airport entering service after November 30, 1971, shall go into effect on the date the airport enters service.

Violation of Standards; Enforcement; Penalties

21669.4. (a) The violation of the noise standards by any aircraft shall be deemed a misdemeanor and the operator thereof shall be punished by a fine of one thousand dollars (\$1,000) for each infraction.

(b) It shall be the function of the county wherein an airport is situated to enforce the noise regulations established by the department. To this end, the operator of an airport shall furnish to the enforcement authority designated by the county the information required by the department's regulations to permit the efficient enforcement thereof. The operator of each airport shall reimburse the county for its costs of implementing the airport noise regulations contained in Article 8 (commencing with Section 5050) of subchapter 6 of Title 4 of the California Administrative Code, which shall, for purposes of subdivision (c), credit the operator for any amounts received from penalties assessed for violations at such airport. Upon request of the operator, the department shall review and shall determine the reasonableness of such costs, and such costs may be considered in fixing any airport user fees.

(c) Penalties assessed for the violation of the noise regulations shall be used first to reimburse the General Fund for the amount of any money appropriated to carry out the purposes for which the noise regulations are established, and second be used in the enforcement of the noise regulations at participating airports.

Hearing Procedures

21669.6. Hearings under this article required by the provisions of Sections 21665, 21666, 21668, 21668.2, and 21669, or regulations adopted pursuant to such provisions, shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Article 3.5. Airport Land Use Commission

Creation; Membership; Selection

21670. (a) The Legislature hereby finds and declares that:

(1) It is in the public interest to provide for the orderly development of each public use airport in this state and the area surrounding these airports so as to promote the overall goals and objectives of the California airport noise standards adopted pursuant to Section 21669 and to prevent the creation of new noise and safety problems.

(2) It is the purpose of this article to protect public health, safety, and welfare by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to excessive noise and safety hazards within areas around public airports to the extent that these areas are not already devoted to incompatible uses.

(b) In order to achieve the purposes of this article, every county in which there is located an airport which is served by a scheduled airline shall establish an airport land use commission. Every county, in which there is located an airport which is not served by a scheduled airline, but is operated for the benefit of the general public, shall establish an airport land use commission, except that the board of supervisors of the county may, after consultation with the appropriate airport operators and affected local entities and after a public hearing, adopt a resolution finding that there are no noise, public safety, or land use issues affecting any airport in the county which require the creation of a commission and declaring the county exempt from that requirement. The board shall, in this event, transmit a copy of the resolution to the Director of Transportation. For purposes of this section, "commission" means an airport land use commission. Each commission shall consist of seven members to be selected as follows:

(1) Two representing the cities in the county, appointed by a city selection committee comprised of the mayors of all the cities within that county, except that if there are any cities contiguous or adjacent to the qualifying airport, at least one representative shall be appointed therefrom. If there are no cities within a county, the number of representatives provided for by paragraphs (2) and (3) shall each be increased by one.

(2) Two representing the county, appointed by the board of supervisors.

(3) Two having expertise in aviation, appointed by a selection committee comprised of the managers of all of the public airports within that county.

(4) One representing the general public, appointed by the other six members of the commission.

(c) Public officers, whether elected or appointed, may be appointed and serve as members of the commission during their terms of public office.

(d) Each member shall promptly appoint a single proxy to represent him or her in commission affairs and to vote on all matters when the member is not in attendance. The proxy shall be designated in a signed written instrument which shall be kept on file at the commission offices, and the proxy shall serve at the pleasure of the appointing member. A vacancy in the office of proxy shall be filled promptly by appointment of a new proxy.

(e) A person having an "expertise in aviation" means a person who, by way of education, training, business, experience, vocation, or avocation has acquired and possesses particular knowledge of, and familiarity with, the function, operation, and role of airports, or is an elected official of a local agency which owns or operates an airport.

(f) It is the intent of the Legislature to clarify that, for the purposes of this article, that special districts, school districts, and community college districts are included among the local agencies that are subject to airport land use laws and other requirements of this article.

Action by Designated Body Instead of Commission

21670.1. (a) Notwithstanding any other provision of this article, if the board of supervisors and the city selection committee of mayors in the county each makes a determination by a majority vote that proper land use planning can be accomplished through the actions of an appropriately designated body, then the body so designated shall assume the planning responsibilities of an airport land use commission as provided for in this article, and a commission need not be formed in that county.

(b) A body designated pursuant to subdivision (a) which does not include among its membership at least two members having an expertise in aviation, as defined in subdivision (e) of Section 21670, shall, when acting in the capacity of an airport land use commission, be augmented so that body, as augmented, will have at least two

members having that expertise. The commission shall be constituted pursuant to this section on and after March 1, 1988.

(c) (1) Notwithstanding subdivisions (a) and (b), and subdivision (b) of Section 21670, if the board of supervisors of a county and each affected city in that county each makes a determination that proper land use planning pursuant to this article can be accomplished pursuant to this subdivision, then a commission need not be formed in that county. (2) If the board of supervisors of a county and each affected city makes a determination that proper land use planning may be accomplished and a commission is not formed pursuant to paragraph (1), that county and the appropriate affected cities having jurisdiction over an airport, subject to the review and approval by the Division of Aeronautics of the department, shall do all of the following:

(A) Adopt processes for the preparation, adoption, and amendment of the airport land use compatibility plan for each airport that is served by a scheduled airline or operated for the benefit of the general public.

(B) Adopt processes for the notification of the general public, landowners, interested groups, and other public agencies regarding the preparation, adoption, and amendment of the airport land use compatibility plans.

(C) Adopt processes for the mediation of disputes arising from the preparation, adoption, and amendment of the airport land use compatibility plans.

(D) Adopt processes for the amendment of general and specific plans to be consistent with the airport land use compatibility plans.

(E) Designate the agency that shall be responsible of the preparation, adoption, and amendment of each airport land use compatibility plan.

(3) The Division of Aeronautics of the department shall review the processes adopted pursuant to paragraph (2), and shall approve the processes if the division determines that the processes are consistent with the procedure required by this article and will do all of the following:

(A) Result in the preparation, adoption, and implementation of plans within a reasonable amount of time.

(B) Rely on the height, use, noise, safety, and density criteria that are compatible with airport operations, as established by this article, and referred to as the Airport Land Use Planning Handbook, published by the division, and any applicable federal aviation regulations, including, but not limited to, Part 77 (commencing with Section 77.1) of Title 14 of the Code of Federal Regulations.

(C) Provide adequate opportunities for notice to, review of, and comment by the general public, landowners, interested groups, and other public agencies.

(4) If the county does not comply with the requirements of paragraph (2) within 120 days, then the airport land use compatibility plan and amendments shall not be considered adopted pursuant to this article and a commission shall be established within 90 days of the determination of noncompliance by the division and an airport land use compatibility plan shall be adopted pursuant to this article within 90 days of the establishment of the commission.

(d) A commission need not be formed in a county that has contracted for the preparation of airport land use compatibility plans with the Division of Aeronautics under the California Aid to Airports Program (Title 21 (commencing with Section 4050) of the California Code of Regulations), Project Ker-VAR 90-1, and that submits all of the following information to the Division of Aeronautics for review and comment that the county and the cities affected by the airports within the county, as defined by the airport land use compatibility plans:

(1) Agree to adopt and implement the airport land use compatibility plans that have been developed under contract.

(2) Incorporated the height, use, noise, safety, and density criteria that are compatible with airport operations as established by this article, and referred to as the Airport Land Use Planning Handbook, published by the division, and any applicable federal aviation regulations, including, but not limited to, Part 77 (commencing with Section 77.1) of Title 14 of the Code of Federal Regulations as part of the general and specific plans for the county and for each affected city.

(3) If the county does not comply with this subdivision on or before May 1, 1995, then a commission shall be established in accordance with this article.

(e) (1) A commission need not be formed in a county if all of the following conditions are met:

(A) The county has only one public use airport that is owned by a city.

(B) (i) The county and the affected city adopt the elements in paragraph (2) of subdivision (d), as part of their general and specific plans for the county and the affected city.

(ii) The general and specific plans shall be submitted, upon adoption, to the Division of Aeronautics. If the county and the affected city do not submit the elements specified in paragraph (2) of subdivision (d), on or before May 1, 1996, then a commission shall be established in accordance with this article.

Application to Counties Having Over 4 Million Population

21670.2. (a) Sections 21670 and 21670.1 do not apply to the County of Los Angeles. In that county, the county regional planning commission has the responsibility for coordinating the airport planning of public agencies within the county. In instances where impasses result relative to this planning, an appeal may be made to the county regional planning commission by any public agency involved. The action taken by the county regional planning commission on an appeal may be overruled by a four-fifths vote of the governing body of a public agency whose planning led to the appeal.

(b) By January 1, 1992, the county regional planning commission shall adopt the airport land use compatibility plans required pursuant to Section 21675.

(c) Sections 21675.1, 21675.2, and 21679.5 do not apply to the County of Los Angeles until January 1, 1992. If the airport land use compatibility plans required pursuant to Section 21675 are not adopted by the county regional planning commission by January 1, 1992, Sections 21675.1 and 21675.2 shall apply to the County of Los Angeles until the airport land use compatibility plans are adopted.

San Diego County

21670.3. (a) Sections 21670 and 21670.1 do not apply to the County of San Diego. In that county, the San Diego County Regional Airport Authority, as established pursuant to Section 170002, is responsible for coordinating the airport planning of public agencies within the county and shall, on or before June 30, 2005, after reviewing the existing comprehensive land use plan adopted pursuant to Section 21675, adopt a comprehensive land use plan.

(b) Any comprehensive land use plan developed pursuant to Section 21675 and adopted pursuant to Section 21675.1 by the San Diego Association of Governments shall remain in effect until June 30, 2005, unless the San Diego County Regional Airport Authority adopts a plan prior to that date pursuant to subdivision (a).

Intercounty Airports

21670.4. (a) As used in this section, "intercounty airport" means any airport bisected by a county line through its runways, runway protection zones, inner safety zones, inner turning zones, outer safety zones, or sideline safety zones, as defined by the department's Airport Land Use Planning Handbook and referenced in the airport land use compatibility plan formulated under Section 21675.

(b) It is the purpose of this section to provide the opportunity to establish a separate airport land use commission so that an intercounty airport may be served by a single airport land use planning agency, rather than having to look separately to the airport land use commissions of the affected counties.

(c) In addition to the airport land use commissions created under Section 21670 or the alternatives established under Section 21670.1, for their respective counties, the boards of supervisors and city selection committees for the affected counties, by independent majority vote of each county's two delegations, for any intercounty airport, may do either of the following:

(1) Establish a single separate airport land use commission for that airport. That commission shall consist of seven members to be selected as follows:

(A) One representing the cities in each of the counties, appointed by that county's city selection committee.

(B) One representing each of the counties, appointed by the board of supervisors of each county.

(C) One from each county having expertise in aviation, appointed by a selection committee comprised of the managers of all the public airports within that county.

(D) One representing the general public, appointed by the other six members of the commission.

(2) In accordance with subdivision (a) or (b) of Section 21670.1, designate an existing appropriate entity as that airport's land use commission.

Airport Owned by a City, District, or County

21671. In any county where there is an airport operated for the general public which is owned by a city or district in another county or by another county, one of the representatives provided by paragraph (1) of subdivision (b) of Section 21670 shall be appointed by the city selection committee of mayors of the cities of the county in which the owner of that airport is located, and one of the representatives provided by paragraph (2) of subdivision (b) of Section 21670 shall be appointed by the board of supervisors of the county in which the owner of that airport is located.

Term of Office

21671.5. (a) Except for the terms of office of the members of the first commission, the term of office of each member shall be four years and until the appointment and qualification of his or her successor. The members of the first commission shall classify themselves by lot so that the term of office of one member is one year, of two members is two years, of two members is three years, and of two members is four years. The body that originally appointed a member whose term has expired shall appoint his or her successor for a full term of four years. Any member may be removed at any time and without cause by the body appointing that member. The expiration date of the term of office of each member shall be the first Monday in May in the year in which that member's term is to expire. Any vacancy in the membership of the commission shall be filled for the unexpired term by appointment by the body which originally appointed the member whose office has become vacant. The chairperson of the commission shall be selected by the members thereof.

(b) Compensation, if any, shall be determined by the board of supervisors.

(c) Staff assistance, including the mailing of notices and the keeping of minutes and necessary quarters, equipment, and supplies shall be provided by the county. The usual and necessary operating expenses of the commission shall be a county charge.

(d) Notwithstanding any other provisions of this article, the commission shall not employ any personnel either as employees or independent contractors without the prior approval of the board of supervisors.

(e) The commission shall meet at the call of the commission chairperson or at the request of the majority of the commission members. A majority of the commission members shall constitute a quorum for the transaction of business. No action shall be taken by the commission except by the recorded vote of a majority of the full membership.

(f) The commission may establish a schedule of fees necessary to comply with this article. Those fees shall be charged to the proponents of actions, regulations, or permits, shall not exceed the estimated reasonable cost of providing the service, and shall be imposed pursuant to Section 66016 of the Government Code. Except as provided in subdivision (g), after June 30, 1991, a commission that has not adopted the airport land use compatibility plan required by Section 21675 shall not charge fees pursuant to this subdivision until the commission adopts the plan.

(g) In any county that has undertaken by contract or otherwise completed airport land use compatibility plans for at least one-half of all public use airports in the county, the commission may continue to charge fees necessary to comply with this article until June 30, 1992, and, if the airport land use compatibility plans are complete by that date, may continue charging fees after June 30, 1992. If the airport land use compatibility plans are not complete by June 30, 1992, the commission shall not charge fees pursuant to subdivision (f) until the commission adopts the land use plans.

Rules and Regulations

21672. Each commission shall adopt rules and regulations with respect to the temporary disqualification of its members from participating in the review or adoption of a proposal because of conflict of interest and with respect to appointment of substitute members in such cases.

Initiation of Proceedings for Creation by Owner of Airport

21673. In any county not having a commission or a body designated to carry out the responsibilities of a commission, any owner of a public airport may initiate proceedings for the creation of a commission by presenting a request to the board of supervisors that a commission be created and showing the need therefor to the satisfaction of the board of supervisors.

Powers and Duties

21674. The commission has the following powers and duties, subject to the limitations upon its jurisdiction set forth in Section 21676:

(a) To assist local agencies in ensuring compatible land uses in the vicinity of all new airports and in the vicinity of existing airports to the extent that the land in the vicinity of those airports is not already devoted to incompatible uses.

(b) To coordinate planning at the state, regional, and local levels so as to provide for the orderly development of air transportation, while at the same time protecting the public health, safety, and welfare.

(c) To prepare and adopt an airport land use compatibility plan pursuant to Section 21675.

(d) To review the plans, regulations, and other actions of local agencies and airport operators pursuant to Section 21676.

(e) The powers of the commission shall in no way be construed to give the commission jurisdiction over the operation of any airport.

(f) In order to carry out its responsibilities, the commission may adopt rules and regulations consistent with this article.

Training of Airport Land Use Commission's Staff

21674.5. (a) The Department of Transportation shall develop and implement a program or programs to assist in the training and development of the staff of airport land use commissions, after consulting with airport land use commissions, cities, counties, and other appropriate public entities.

(b) The training and development program or programs are intended to assist the staff of airport land use commissions in addressing high priority needs, and may include, but need not be limited to, the following:

- (1) The establishment of a process for the development and adoption of airport land use compatibility plans.
- (2) The development of criteria for determining airport land use planning boundaries.
- (3) The identification of essential elements that should be included in the airport land use compatibility plans.
- (4) Appropriate criteria and procedures for reviewing proposed developments and determining whether proposed developments are compatible with the airport use.

(5) Any other organizational, operational, procedural, or technical responsibilities and functions that the department determines to be appropriate to provide to commission staff and for which it determines there is a need for staff training or development.

(c) The department may provide training and development programs for airport land use commission staff pursuant to this section by any means it deems appropriate. Those programs may be presented in any of the following ways:

- (1) By offering formal courses or training programs.
- (2) By sponsoring or assisting in the organization and sponsorship of conferences, seminars, or other similar events.
- (3) By producing and making available written information.
- (4) Any other feasible method of providing information and assisting in the training and development of airport land use commission staff.

Airport Land Use Planning Handbook

21674.7. (a) An airport land use commission that formulates, adopts, or amends an airport land use compatibility plan shall be guided by information prepared and updated pursuant to Section 21674.5 and referred to as the Airport Land Use Planning Handbook published by the Division of Aeronautics of the Department of Transportation.

(b) It is the intent of the Legislature to discourage incompatible land uses near existing airports. Therefore, prior to granting permits for the renovation or remodeling of an existing building, structure, or facility, and before the construction of a new building, it is the intent of the Legislature that local agencies shall be guided by the height, use, noise, safety, and density criteria that are compatible with airport operations, as established by this article, and referred to as the Airport Land Use Planning Handbook, published by the division, and any applicable federal aviation regulations, including, but not limited to, Part 77 (commencing with Section 77.1) of Title 14 of the Code of Federal Regulations, to the extent that the criteria has been incorporated into the plan prepared by a commission pursuant to Section 21675. This subdivision does not limit the jurisdiction of a commission as established by this article. This subdivision does not limit the authority of local agencies to overrule commission actions or recommendations pursuant to Sections 21676, 21676.5, or 21677.

Land Use Plan

21675. (a) Each commission shall formulate a comprehensive land use plan that will provide for the orderly growth of each public airport and the area surrounding the airport within the jurisdiction of the commission, and will safeguard the general welfare of the inhabitants within the vicinity of the airport and the public in general. The commission plan shall include and shall be based on a long-range master plan or an airport layout plan, as determined by the Division of Aeronautics of the Department of Transportation, that reflects the anticipated growth of the airport during at least the next 20 years. In formulating a land use plan, the commission may develop height restrictions on buildings, specify use of land, and determine building standards, including soundproofing adjacent to airports, within the planning area. The comprehensive land use plan shall be reviewed as often as necessary in order to accomplish its purposes, but shall not be amended more than once in any calendar year.

(b) The commission shall include, within its plan formulated pursuant to subdivision (a), the area within the jurisdiction of the commission surrounding any military airport for all of the purposes specified in subdivision (a).

The plan shall be consistent with the safety and noise standards in the Air Installation Compatible Use Zone prepared for that military airport. This subdivision does not give the commission any jurisdiction or authority over the territory or operations of any military airport.

(c) The planning boundaries shall be established by the commission after hearing and consultation with the involved agencies.

(d) The commission shall submit to the Division of Aeronautics of the department one copy of the plan and each amendment to the plan.

(e) If a comprehensive land use plan does not include the matters required to be included pursuant to this article, the Division of Aeronautics of the department shall notify the commission responsible for the plan.

Adoption of Land Use Plan

21675.1. (a) By June 30, 1991, each commission shall adopt the airport land use compatibility plan required pursuant to Section 21675, except that any county that has undertaken by contract or otherwise completed airport land use compatibility plans for at least one-half of all public use airports in the county, shall adopt that airport land use compatibility plan on or before June 30, 1992.

(b) Until a commission adopts an airport land use compatibility plan, a city or county shall first submit all actions, regulations, and permits within the vicinity of a public airport to the commission for review and approval. Before the commission approves or disapproves any actions, regulations, or permits, the commission shall give public notice in the same manner as the city or county is required to give for those actions, regulations, or permits. As used in this section, "vicinity" means land that will be included or reasonably could be included within the airport land use compatibility plan. If the commission has not designated a study area for the airport land use compatibility plan, then "vicinity" means land within two miles of the boundary of a public airport.

(c) The commission may approve an action, regulation, or permit if it finds, based on substantial evidence in the record, all of the following:

(1) The commission is making substantial progress toward the completion of the airport land use compatibility plan.

(2) There is a reasonable probability that the action, regulation, or permit will be consistent with the airport land use compatibility plan being prepared by the commission.

(3) There is little or no probability of substantial detriment to or interference with the future adopted airport land use compatibility plan if the action, regulation, or permit is ultimately inconsistent with the airport land use compatibility plan.

(d) If the commission disapproves an action, regulation, or permit, the commission shall notify the city or county. The city or county may overrule the commission, by a two-thirds vote of its governing body, if it makes specific findings that the proposed action, regulation, or permit is consistent with the purposes of this article, as stated in Section 21670.

(e) If a city or county overrules the commission pursuant to subdivision (d), that action shall not relieve the city or county from further compliance with this article after the commission adopts the airport land use compatibility plan.

(f) If a city or county overrules the commission pursuant to subdivision (d) with respect to a publicly owned airport that the city or county does not operate, the operator of the airport is not liable for damages to property or personal injury resulting from the city's or county's decision to proceed with the action, regulation, or permit.

(g) A commission may adopt rules and regulations that exempt any ministerial permit for single-family dwellings from the requirements of subdivision (b) if it makes the findings required pursuant to subdivision (c) for the proposed rules and regulations, except that the rules and regulations may not exempt either of the following:

(1) More than two single-family dwellings by the same applicant within a subdivision prior to June 30, 1991.

(2) Single-family dwellings in a subdivision where 25 percent or more of the parcels are undeveloped.

Approval or Disapproval of Actions, Regulations, or Permits

21675.2. (a) If a commission fails to act to approve or disapprove any actions, regulations, or permits within 60 days of receiving the request pursuant to Section 21675.1, the applicant or his or her representative may file an action pursuant to Section 1094.5 of the Code of Civil Procedure to compel the commission to act, and the court shall give the proceedings preference over all other actions or proceedings, except previously filed pending matters of the same character.

(b) The action, regulation, or permit shall be deemed approved only if the public notice required by this subdivision has occurred. If the applicant has provided seven days advance notice to the commission of the intent to

provide public notice pursuant to this subdivision, then, not earlier than the date of the expiration of the time limit established by Section 21675.1, an applicant may provide the required public notice. If the applicant chooses to provide public notice, that notice shall include a description of the proposed action, regulation, or permit substantially similar to the descriptions which are commonly used in public notices by the commission, the location of any proposed development, the application number, the name and address of the commission, and a statement that the action, regulation, or permit shall be deemed approved if the commission has not acted within 60 days. If the applicant has provided the public notice specified in this subdivision, the time limit for action by the commission shall be extended to 60 days after the public notice is provided. If the applicant provides notice pursuant to this section, the commission shall refund to the applicant any fees which were collected for providing notice and which were not used for that purpose.

(c) Failure of an applicant to submit complete or adequate information pursuant to Sections 65943 to 65946, inclusive, of the Government Code, may constitute grounds for disapproval of actions, regulations, or permits.

(d) Nothing in this section diminishes the commission's legal responsibility to provide, where applicable, public notice and hearing before acting on an action, regulation, or permit.

Review of Local General Plans

21676 (a) Each local agency whose general plan includes areas covered by an airport land use compatibility plan shall, by July 1, 1983, submit a copy of its plan or specific plans to the airport land use commission. The commission shall determine by August 31, 1983, whether the plan or plans are consistent or inconsistent with the airport land use compatibility plan. If the plan or plans are inconsistent with the airport land use compatibility plan, the local agency shall be notified and that local agency shall have another hearing to reconsider its airport land use compatibility plans. The local agency may propose to overrule the commission after the hearing by a two-thirds vote of its governing body if it makes specific findings that the proposed action is consistent with the purposes of this article stated in Section 21670. At least 45 days prior to the decision to overrule the commission, the local agency governing body shall provide the commission and the division a copy of the proposed decision and findings. The commission and the division may provide comments to the local agency governing body within 30 days of receiving the proposed decision and findings. If the commission or the division's comments are not available within this time limit, the local agency governing body may act without them. The comments by the division or the commission are advisory to the local agency governing body. The local agency governing body shall include comments from the commission and the division in the final record of any final decision to overrule the commission, which may only be adopted by a two-thirds vote of the governing body.

(b) Prior to the amendment of a general plan or specific plan, or the adoption or approval of a zoning ordinance or building regulation within the planning boundary established by the airport land use commission pursuant to Section 21675, the local agency shall first refer the proposed action to the commission. If the commission determines that the proposed action is inconsistent with the commission's plan, the referring agency shall be notified. The local agency may, after a public hearing, propose to overrule the commission by a two-thirds vote of its governing body if it makes specific findings that the proposed action is consistent with the purposes of this article stated in Section 21670. At least 45 days prior to the decision to overrule the commission, the local agency governing body shall provide the commission and the division a copy of the proposed decision and findings. The commission and the division may provide comments to the local agency governing body within 30 days of receiving the proposed decision and findings. If the commission or the division's comments are not available within this time limit, the local agency governing body may act without them. The comments by the division or the commission are advisory to the local agency governing body. The local agency governing body shall include comments from the commission and the division in the public record of any final decision to overrule the commission, which may only be adopted by a two-thirds vote of the governing body.

(c) Each public agency owning any airport within the boundaries of an airport land use compatibility plan shall, prior to modification of its airport master plan, refer any proposed change to the airport land use commission. If the commission determines that the proposed action is inconsistent with the commission's plan, the referring agency shall be notified. The public agency may, after a public hearing, propose to overrule the commission by a two-thirds vote of its governing body if it makes specific findings that the proposed action is consistent with the purposes of this article stated in Section 21670. At least 45 days prior to the decision to overrule the commission, the public agency governing body shall provide the commission and the division a copy of the proposed decision and findings. The commission and the division may provide comments to the public agency governing body within 30 days of receiving the proposed decision and findings. If the commission or the division's comments are not available within this time limit, the public agency governing body may act without them. The comments by the division or the commission are advisory to the public agency governing body. The public agency governing body shall include

comments from the commission and the division in the final decision to overrule the commission, which may only be adopted by a two-thirds vote of the governing body.

(d) Each commission determination pursuant to subdivision (b) or (c) shall be made within 60 days from the date of referral of the proposed action. If a commission fails to make the determination within that period, the proposed action shall be deemed consistent with the airport land use compatibility plan.

Review of Local Plans

21676.5. (a) If the commission finds that a local agency has not revised its general plan or specific plan or overruled the commission by a two-thirds vote of its governing body after making specific findings that the proposed action is consistent with the purposes of this article as stated in Section 21670, the commission may require that the local agency submit all subsequent actions, regulations, and permits to the commission for review until its general plan or specific plan is revised or the specific findings are made. If, in the determination of the commission, an action, regulation, or permit of the local agency is inconsistent with the airport land use compatibility plan, the local agency shall be notified and that local agency shall hold a hearing to reconsider its plan. The local agency may propose to overrule the commission after the hearing by a two-thirds vote of its governing body if it makes specific findings that the proposed action is consistent with the purposes of this article as stated in Section 21670. At least 45 days prior to the decision to overrule the commission, the local agency governing body shall provide the commission and the division a copy of the proposed decision and findings. The commission and the division may provide comments to the local agency governing body within 30 days of receiving the proposed decision and findings. If the commission or the division's comments are not available within this time limit, the local agency governing body may act without them. The comments by the division or the commission are advisory to the local agency governing body. The local agency governing body shall include comments from the commission and the division in the final decision to overrule the commission, which may only be adopted by a two-thirds vote of the governing body.

(b) Whenever the local agency has revised its general plan or specific plan or has overruled the commission pursuant to subdivision (a), the proposed action of the local agency shall not be subject to further commission review, unless the commission and the local agency agree that individual projects shall be reviewed by the commission.

Marin County Override Provisions

21677. Notwithstanding the two-thirds vote required by Section 21676, any public agency in the County of Marin may overrule the Marin County Airport Land Use Commission by a majority vote of its governing body. At least 45 days prior to the decision to overrule the commission, the public agency governing body shall provide the commission and the division a copy of the proposed decision and findings. The commission and the division may provide comments to the public agency governing body within 30 days of receiving the proposed decision and findings. If the commission or the division's comments are not available within this time limit, the public agency governing body may act without them. The comments by the division or the commission are advisory to the public agency governing body. The public agency governing body shall include comments from the commission and the division in the public record of the final decision to overrule the commission, which may be adopted by a majority vote of the governing body.

Airport Owner's Immunity

21678. With respect to a publicly owned airport that a public agency does not operate, if the public agency pursuant to Section 21676, 21676.5, or 21677 overrules a commission's action or recommendation, the operator of the airport shall be immune from liability for damages to property or personal injury caused by or resulting directly or indirectly from the public agency's decision to overrule the commission's action or recommendation.

Court Review

21679. (a) In any county in which there is no airport land use commission or other body designated to assume the responsibilities of an airport land use commission, or in which the commission or other designated body has not adopted an airport land use compatibility plan, an interested party may initiate proceedings in a court of competent jurisdiction to postpone the effective date of a zoning change, a zoning variance, the issuance of a permit, or the adoption of a regulation by a local agency, that directly affects the use of land within one mile of the boundary of a public airport within the county.

(b) The court may issue an injunction that postpones the effective date of the zoning change, zoning variance, permit, or regulation until the governing body of the local agency that took the action does one of the following:

(1) In the case of an action that is a legislative act, adopts a resolution declaring that the proposed action is consistent with the purposes of this article stated in Section 21670.

(2) In the case of an action that is not a legislative act, adopts a resolution making findings based on substantial evidence in the record that the proposed action is consistent with the purposes of this article stated in Section 21670.

(3) Rescinds the action.

(4) Amends its action to make it consistent with the purposes of this article stated in Section 21670, and complies with either paragraph (1) or (2), whichever is applicable.

(c) The court shall not issue an injunction pursuant to subdivision (b) if the local agency that took the action demonstrates that the general plan and any applicable specific plan of the agency accomplishes the purposes of an airport land use compatibility plan as provided in Section 21675.

(d) An action brought pursuant to subdivision (a) shall be commenced within 30 days of the decision or within the appropriate time periods set by Section 21167 of the Public Resources Code, whichever is longer.

(e) If the governing body of the local agency adopts a resolution pursuant to subdivision (b) with respect to a publicly owned airport that the local agency does not operate, the operator of the airport shall be immune from liability for damages to property or personal injury from the local agency's decision to proceed with the zoning change, zoning variance, permit, or regulation.

(f) As used in this section, "interested party" means any owner of land within two miles of the boundary of the airport or any organization with a demonstrated interest in airport safety and efficiency.

Deferral of Court Review

21679.5. (a) Until June 30, 1991, no action pursuant to Section 21679 to postpone the effective date of a zoning change, a zoning variance, the issuance of a permit, or the adoption of a regulation by a local agency, directly affecting the use of land within one mile of the boundary of a public airport, shall be commenced in any county in which the commission or other designated body has not adopted an airport land use compatibility plan, but is making substantial progress toward the completion of the airport land use compatibility plan.

(b) If a commission has been prevented from adopting the airport land use compatibility plan by June 30, 1991, or if the adopted airport land use compatibility plan could not become effective, because of a lawsuit involving the adoption of the airport land use compatibility plan, the June 30, 1991, date in subdivision (a) shall be extended by the period of time during which the lawsuit was pending in a court of competent jurisdiction.

(c) Any action pursuant to Section 21679 commenced prior to January 1, 1990, in a county in which the commission or other designated body has not adopted an airport land use compatibility plan, but is making substantial progress toward the completion of the airport land use compatibility plan, which has not proceeded to final judgment, shall be held in abeyance until June 30, 1991. If the commission or other designated body adopts an airport land use compatibility plan on or before June 30, 1991, the action shall be dismissed. If the commission or other designated body does not adopt an airport land use compatibility plan on or before June 30, 1991, the plaintiff or plaintiffs may proceed with the action.

(d) An action to postpone the effective date of a zoning change, a zoning variance, the issuance of a permit, or the adoption of a regulation by a local agency, directly affecting the use of land within one mile of the boundary of a public airport for which an airport land use compatibility plan has not been adopted by June 30, 1991, shall be commenced within 30 days of June 30, 1991, or within 30 days of the decision by the local agency, or within the appropriate time periods set by Section 21167 of the Public Resources Code, whichever date is later.

Article 4. Aeronautics Fund

Continuation; Continuous Appropriation

21680. (a) The Aeronautics Fund is hereby continued in existence as the Aeronautics Account in the State Transportation Fund. The moneys deposited to the credit of the account are continuously appropriated for expenditure by the board and the department as provided in this article.

(b) Any reference in any law or regulation to the Airport Assistance Revolving Fund, the Airport Assistance Fund, or the Aeronautics Fund shall be deemed to refer to the Aeronautics Account in the State Transportation Fund. As used in this article, "fund" shall be deemed to refer to the Aeronautics Account in the State Transportation Fund.

Definitions

21681. As used in this article, the following terms have the following meanings:

(a) "Own and operate" means that the public entity shall own the property in fee simple or by a long-term lease of a minimum of 20 years, unless otherwise approved by the department, and shall maintain dominion and control of the property, except that the public entity may provide by contract with a person for the operation and management of an airport otherwise meeting the requirements of this article. Operations of the airport shall be for, and on behalf of, the public entity. All leases to the public entity of property are required to be approved by the department. A lease of the property by the public entity to an agent or agency other than to a public entity does not meet the criteria for participation in airport assistance funds.

(b) "Matching funds" means money that is provided by the public entity and does not consist of funds previously received from state or federal agencies or public entity funds previously used to match federal or state funds. This definition shall be retroactive to July 1, 1967.

(c) "General aviation" means all aviation except air carrier and military aviation.

(d) "Public entity" means any city, county, airport district, airport authority, port district, port authority, public district, public authority, political subdivision, airport land use commission, community services district, or public corporation and the University of California.

(e) "Public agency" means the various agencies of the State of California and the federal government.

(f) "Airport and aviation purposes" means expenditures of a capital improvement nature, including the repair or replacement of a capital improvement, and expenditures for compatible land use planning in the area surrounding an airport, for any of the following purposes:

(1) Land acquisition for development and improvement of general aviation aircraft landing facilities.

(2) Grading and drainage necessary for the construction or reconstruction of runways or taxiways.

(3) Construction or reconstruction of runways or taxiways.

(4) Acquisition of "runway protection zones" as defined in Federal Aviation Administration Advisory Circular 150/1500-13.

(5) Acquisition of easements through, or other interests in, airspace as may be reasonably required for safeguarding aircraft operations in the vicinity of an aircraft landing facility.

(6) Removal of natural obstructions from runway protection zones.

(7) Installation of "segmented circle airport marker systems" as defined in current regulations of the Federal Aviation Administration.

(8) Installation of runway, taxiway, boundary, or obstruction lights, together with directly related electrical equipment.

(9) Installation of minimum security fencing around the perimeter of an aircraft landing facility.

(10) Grading and drainage necessary to provide for parking of transient general aviation aircraft.

(11) Construction or reconstruction of transient general aviation aircraft parking areas.

(12) Servicing of revenue or general obligation bonds issued to finance capital improvements for airport and aviation purposes.

(13) Air navigational facilities.

(14) Engineering and preliminary engineering related directly to a project funded under this article.

(15) Other capital improvements as may be designated in rules and regulations adopted by the department.

(16) Activities of an airport land use commission in connection with the preparation of a new or updated airport land use compatibility plan pursuant to Section 21675. Expenditures that cannot be clearly identified as capital improvements shall be submitted to the department for consideration and approval.

(17) Airport master plans and airport layout plans.

(g) "Operation and maintenance" means expenditures for wages or salaries, utilities, service vehicles, and all other noncapital expenditures that are included in insurance, professional services, supplies, construction equipment, upkeep and landscaping, and other items of expenditure designated as "operation and maintenance" in rules and regulations adopted by the department.

(h) "Enplanement" means the boarding of an aircraft by a revenue passenger, including an original, stopover, or transfer boarding of the aircraft. For purposes of this subdivision, a stopover is a deliberate and intentional interruption of a journey by a passenger scheduled to exceed four hours in the case of an intrastate or interstate passenger or not to exceed 24 hours in the case of an international passenger at a point between the point of departure and the point of destination, and a transfer is an occurrence at an intermediate point in an itinerary whereby a passenger or shipment changes from a flight of one carrier to another flight either of the same or a different carrier with or without a stopover.

Payments from Fund

21682. (a) The department shall establish individual revolving fund subaccounts for eligible airports in the Aeronautics Account in the State Transportation Fund. Money payable under this section shall be credited to individual airport subaccounts annually, and may be accumulated for a maximum period of five years.

(b) The department shall, subject to Section 21684, credit from the Aeronautics Account to each public entity owning and operating an airport or airports under a valid permit issued by the department for every airport which has not been designated by the Federal Aviation Administration as (1) a reliever airport, as defined in Section 503 (a) (19) of the federal Airport and Airway Improvement Act of 1982, as amended, or (2) a commercial service airport, as defined in Section 503 (a) (5) of the federal Airport and Airway Improvement Act of 1982, as amended, the sum of ten thousand dollars (\$10,000) annually for each qualifying airport. These funds shall be paid to public entities upon request for expenditure on preapproved eligible projects. Eligible public entities may submit applications for the withdrawal of credited funds for expenditure on proposed projects in letter form to the department for review and approval. Projects identified shall be for airport and aviation purposes and operation and maintenance purposes. No payment made under this section is transferable, but shall be expended only upon the airport for which the payment is made, unless the department authorizes a payment to be transferred for expenditure on another airport owned or operated by the public entity. The department may establish any accounting systems it deems necessary to provide for the cumulation and expenditure of funds under this subdivision.

(c) If, in any year, there is insufficient money in the Aeronautics Account to make the credits specified in subdivision (b), the department shall, subject to Section 21684, credit to each public entity subaccount an amount which is equal to the total amount of money in the Aeronautics Account multiplied by a percentage equivalent to the proportion which the airport or airports of the public entity for which credit is required to be made pursuant to subdivision (b) bear to the total number of airports for which credit is required to be made pursuant to subdivision (b).

(d) No payment shall be made under this section to any public entity for any airport on which general or commercial aviation activities are substantially restricted if the airport is licensed to conduct these activities by the department. The department shall determine whether or not general or commercial aviation activities are restricted.

(e) The department shall adopt rules and regulations and establish procedures to effect prompt payment to public entities for eligible airport projects from money credited pursuant to this section.

Payment of Aviation Share of Comprehensive Transportation Planning Costs

21682.5. The department shall pay, from the Aeronautics Account to the Transportation Planning and Development Account in the State Transportation Fund, a sum equal to the pro rata share of the comprehensive transportation duties attributable to aviation planning and research, as determined by the Director of Transportation.

Use of Balance

21683. Any public entity may apply to the department each year for the allocation of funds for the acquisition or development of airports. The commission may, pursuant to rules and regulations promulgated by the department, make an allocation to the public entity if it determines that the proposed acquisition or development is feasible and in accordance with the policies and standards established by the department. The department shall make recommendations to the commission on all applications. Such allocations shall be represented as subventions in the department budget in accordance with Section 21206.

No moneys paid under this section shall be expended for operation and maintenance. No payment shall be made under this section to any public entity for any airport on which general or commercial aviation activities are substantially restricted if the airport is licensed to conduct such activities by the department. The department shall determine whether or not general or commercial aviation activities are restricted.

Use of Funds for Local Match for Federal Airport Improvement Program Grants

21683.1. (a) At the discretion of the commission, any balance remaining in the Aeronautics Account, after the payments made under Section 21682, may be used to provide a portion of the local match for federal Airport Improvement Program grants. Matching shall be provided only for grants at general aviation airports, or at airports that have been designated by the Federal Aviation Administration as reliever airports, as defined in Section 503(a)(19) of the federal Airport and Airway Improvement Act of 1982, as amended.

(b) Funds shall not be allocated by the commission until the federal grant offer is accepted by the public entity. Upon allocation by the commission, the department may pay a public entity an amount equal to 5 percent of the

amount of a federal Airport Improvement Program grant. These funds are excluded from the requirements of Section 21684.

(c) Funds shall not be allocated by the commission until the federal grant offer is accepted by the public entity. Upon allocation by the commission, the department may, until December 31, 2006, pay a public entity an amount equal to the 10 percent local match required for a federal Airport Improvement Program grant for security projects at small general aviation airports. For purposes of this section, a "security project" means a project to install or maintain fencing, gates, security lighting, access controls systems, and surveillance systems. For purposes of this section a "small general aviation airport" means an airport with fewer than 80,000 annual landings and take-offs of aircraft.

Use of Balance in Aeronautics Account

21683.2. Any balance remaining in the Aeronautics Account, after the payments made under Section 21682 and Section 21683.1, shall be used at the discretion of the commission for airport and aviation purposes subject to the provisions of Section 21684.

Special Aviation Fund

21684. (a) No payment shall be made to a public entity pursuant to this article unless the public entity has established a special aviation fund in which all payments received by a public entity under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made to a public entity for a project pursuant to Section 21683.2 unless the public entity deposits in its special aviation fund a sum from other than state or federal sources, established annually by the commission at not less than 10 percent nor more than 50 percent of the nonfederal portion of the project.

Notwithstanding the provisions of this subdivision requiring matching funds, the department shall pay to each public entity owning and operating an airport or airports the annual amount that is in accordance with Section 21682.

(b) No payment shall be made for any airport to the University of California pursuant to this article unless the university has established a special aviation fund in which all payments received by the university under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made for any airport to the University of California pursuant to Section 21683.2 unless the university deposits in its special aviation fund each year, for expenditure solely for airport and aviation purposes, a sum from nonstate or nonfederal funds based on the rate established annually by the commission pursuant to subdivision (a), or unless a city located within 10 miles of the airport or the county within which the airport is located pays to the university a sum based on the rate established annually by the commission pursuant to subdivision (a). However, any sums so deposited by the university or paid by the city or county may be considered jointly as meeting the requirements of this section. The payments received from a city or county pursuant to these sections are to be expended solely for the airport and for aviation purposes related to such airport. All payments received by the university shall be deposited in its special aviation fund.

Use of Balance of Fund to Purchase Emergency Search and Rescue Equipment

21684.1. Notwithstanding the provisions of Section 21683, any balance remaining in the fund after the payments made under Section 21682 may be used by the department to purchase emergency search and rescue equipment and to make such equipment available for use by recognized search and rescue groups. The equipment shall remain the property of the department. No more than eight thousand dollars (\$8,000) shall be expended pursuant to this section for the purchase of emergency search and rescue equipment.

Allocation of Funds for Construction of Airports

21684.5. Notwithstanding the provisions of this article inasmuch as they require matching funds the department may allocate funds to public agencies for the construction of airports.

Allocation of Funds to Counties

21684.6. Notwithstanding the provisions of this article, inasmuch as they require matching funds, the department may allocate funds to a county or a city for the construction of recreational airports or reliever training airstrips in accordance with regulations of the department if the county or city supplies the land and maintains and operates all facilities of such airport or airstrip.

Special Aviation Fund; Payments to State College or University Branch

21685. Any public entity may pay any part of the money in its special aviation fund to a state college or branch of the University of California located within its boundaries to be expended for the same purposes as the public entity may expend such money. Any money paid to a state college or branch of the University of California shall be expended within the public entity paying the money.

Audit of Books and Records of Public Agencies

21686. It shall be the duty of any public entity receiving payments or allocations under this article to periodically audit its books and records as deemed necessary by the department for the purpose of determining that the money received has been expended for the purposes and under the conditions authorized by this article.

Airports No Longer Open to the General Public; Payments to State

21687. (a) (1) If an airport, for which payments have been made from the Aeronautics Account, ceases to be open to the general public for more than one year, the public entity to which those payments were made shall pay to the state funds equal to the amount computed by the department pursuant to paragraph (2), and those funds shall be deposited in the Aeronautics Account.

(2) (A) The department shall compute an amount equal to the total of all payments made for the airport from the Aeronautics Account during the preceding 20 years, less 5 percent of the amount of a particular payment multiplied by the number of years since the payment was made, or the unused balance, whichever is greater.

(B) The computation described in subparagraph (A) shall not include any payment the department made pursuant to Section 21682, if, upon the request of the public entity that owns and operates the airport, the department determines that the airport is not necessary to the system of public airports in this state. When making this determination, the department shall consider all of the following factors:

- (i) Whether the airport is approved for night operations.
 - (ii) Whether the airport has an approved instrument approach procedure.
 - (iii) How many aircraft are based at the airport.
 - (iv) Whether the airport is used for airborne fire attacks.
 - (v) Whether the airport is used for emergency medical transportation.
 - (vi) What services the airport provides for the community.
 - (vii) The size of the community that is served by the airport.
 - (viii) Whether any aviation or transportation planning agency has designated the airport as having a significant role.
 - (ix) Whether a suitable, public-use airport is situated within a reasonable distance.
 - (x) Whether closure of the airport will have a negative effect on other airports.
 - (xi) Whether the airport is used for law enforcement purposes.
- (b) This section does not apply to either of the following:
- (1) An airport that is replaced by a comparable facility, as determined by the department, within a period of one year.
 - (2) An airport for which the department, on or after January 1, 1981, has suspended the airport permit and for which payments made pursuant to this article are being expended to correct the deficiency or condition that resulted in the suspension of the airport's permit.

Limitation on Expenditure of Funds

21688. (a) No payments shall be made from the Aeronautics Account for expenditure on any airport or for the acquisition or development of any airport, if the department determines that the height restrictions around the airport are inadequate to provide reasonable assurance that the landing and taking off of aircraft at the airport will be conducted without obstruction or will be otherwise free from hazards.

Height restrictions shall be considered adequate if as a minimum they meet the obstruction standards of subchapter C of Part 77 of the Federal Aviation Regulations of the Federal Aviation Administration, as these standards apply to civil airport imaginary surfaces related to runways.

The airport-owning entity shall have sufficient control over obstructions in the airspace in the vicinity of the airport to assure that height restrictions can be maintained. This control may be in the form of ownership of any land from which obstructions may rise, air navigation easements to guarantee maintenance of restrictions, or height limitation or land use zoning which will prohibit obstructions which would violate the obstruction standards.

(b) This section shall not prevent or prohibit the department from assisting any public agency or public entity in planning airport development or in planning the zoning needs around an airport.

Article 4.5. Airport Facilities and Concessions

Legislative Findings

21690.5. The Legislature finds and declares as follows:

(a) The proper operation of California's publicly owned or operated airports is essential to the welfare of the state and its people.

(b) California's publicly owned or operated airports establish a vital transportation link between the state and the economic systems of the nation and the world, and enable the state to enjoy and provide the benefits of an international tourist and commercial center.

(c) The economic validity and stability of California's publicly owned or operated airports is, consequently, a matter of statewide importance.

(d) The policy of this state is to promote the development of commerce and tourism to the end of securing to the people of this state the benefits of these activities conducted in the state.

(e) Therefore, since the proper operation of the state's publicly owned or operated airports is essential to the welfare of the state and its people, the Legislature recognizes and affirms such operation as a governmental function to be discharged in furtherance of the policy of securing the benefits of commerce and tourism for the state and its people.

Scope of Law

21690.6. The provisions of this article shall apply to any airport owned or operated by a political subdivision, including a charter city.

Promotion of Commerce and Tourism

21690.7. The governing bodies of publicly owned or operated airports shall manage airport facilities and grant airport concessions in furtherance of the development of commerce and tourism in or affecting the state. In managing facilities and granting concessions for services to the public, such airport governing bodies shall promote the development of commerce and tourism by (a) securing a diversity of airport services; (b) avoiding wasteful duplication of such services; (c) securing to the users of airports safe, courteous, and quality service; (d) limiting or prohibiting business competition which is destructive of the ends of promoting commerce and tourism in the state; (e) allocating limited airport resources to promote such ends; and (f) fostering California's image as a commercial and tourist center.

Exclusive Agreements

21690.8. The Legislature recognizes that to further the policies and fulfill the objectives stated in this article, it is often necessary that publicly owned or operated airports enter into exclusive or limited agreements with a single operator or a limited number of operators. The governing bodies of publicly owned or operated airports shall grant exclusive or limited agreements to displace business competition with regulation or monopoly service whenever the governing body determines, in consideration of the factors set forth in Section 21690.9, that such agreements are necessary to further the policies and to fulfill the objectives stated in this article. The Legislature contemplates that publicly owned or operated airports will grant exclusive or limited agreements in furtherance of the policy of this state to displace business competition by exclusive or limited agreements to fulfill these policies and objectives.

Determination of Necessity

21690.9. Before entering any exclusive or limited agreement in connection with the management of any airport facility or the operation of any airport concession, the governing body of a publicly owned or operated airport shall, under authority hereby expressly delegated by the state, determine the necessity for an exclusive or limited agreement. The governing body shall consider the following factors to determine the necessity for an exclusive or limited agreement to further the policies and objectives stated in this article:

- (a) Public safety.
- (b) Public convenience.
- (c) Quality of service.
- (d) The need to conserve airport space.

- (e) The need to avoid duplication of services.
- (f) The impact on the environment or facilities of the airport as an essential commercial and tourist service center.
- (g) The need to avoid destructive competition which may impair the quality of airport services to the public, lead to uncertainty, disruption, or instability in the rendering of such services, or detract from the state's attractiveness as a center of tourism and commerce.

In making its determination, the airport operator shall not be required to take evidence or to make findings of fact.

Compliance with Other States

21690.10. Nothing in this article shall excuse any local agency from complying with applicable state or local requirements for competitive bidding or public hearings which may be required prior to the awarding or entering into of any bid, agreement or lease.

Article 5. Los Angeles International Airport Relocation and Development

Legislative Findings

21690.20. The Legislature hereby finds that Los Angeles International Airport is one of the important air terminals of the world, making a significant contribution daily to the economy of California.

Since 1959, jet air traffic at the airport has increased from 80 flights daily to nearly 1,000 daily. This increasing air traffic and necessary expansion of airport facilities has had an adverse affect on the residents of the surrounding areas. Expansion and development has and is expected to require the acquisition of many homes in the vicinity of the airport and has rendered other homes in areas subjected to aircraft noise nearly uninhabitable. Property owners in the vicinity of the airport are either unable to sell their homes or able to sell only at depressed market prices. Under present laws, the Department of Airports of the City of Los Angeles is required only to pay homeowners "fair market value" for their property. With increasing property costs and current high interest rates, it is impossible for a homeowner to purchase a comparable dwelling in a comparable residential area for amounts now being paid as "fair market value."

The City Council of the City of Los Angeles has initiated this legislation to enable the city to (1) assist displaced homeowners to relocate in comparable residential areas and housing, (2) provide, where available, replacement housing acceptable to affected homeowners, and (3) purchase affected homes to compensate homeowners for the depressed values of their property.

There is precedent for the provision of replacement housing, where available, in Chapter 953 of the Statutes of 1968, by which the Department of Public Works is authorized to provide relocation assistance and replacement housing to certain individuals and families displaced because of construction of certain state highway projects. Further, there is precedent for relocation payments to compensate certain homeowners in Public Law 90-495 and in Chapter 3 of the Statutes of 1968, First Extraordinary Session.

Definitions

21690.21. Unless the context otherwise requires, the following definitions shall govern the construction of this article:

- (a) "Airport" means Los Angeles International Airport.
- (b) "Department" means the Department of Airports, City of Los Angeles.
- (c) "Mayor" means the Mayor of the City of Los Angeles.
- (d) "Board" means the Los Angeles International Airport Property Acquisition Board.

Authority of Department

21690.22. Notwithstanding any other provision of law, the department is authorized to:

- (a) Assist homeowners displaced by the expansion of the airport to relocate in comparable residential areas and housing.
- (b) Provide, where available, replacement housing acceptable to affected homeowners.
- (c) Purchase affected property to compensate homeowners for the depressed values of their property as a result of the proximity of the airport to enable such homeowners to purchase comparable housing under more normal market conditions.

Expenditure of Available Funds

21690.23. The department is authorized to expend any available funds, including state and federal funds, for the purpose of purchasing homes from homeowners displaced by the expansion of the airport and relocating or providing suitable replacement housing for such persons, notwithstanding any other provision of law.

Petition for Payment of Additional Compensation

21690.24. Upon establishment of a program for additional payments to homeowners by the department pursuant to this article, the affected property owners may petition as provided in Section 21690.26 for the payment of additional compensation for the depressed value of the affected property resulting from the presence and operation of the airport, provided that such owner has not previously recovered any sums in the nature of an inverse condemnation award by reason of the presence and operation of the airport.

Appointment of Board

21690.25. Upon establishment by the department of a program for such additional compensation, the mayor shall appoint, subject to the approval of the city council, five persons who shall constitute the board.

Tenure of Board; Quorum; Duties

21690.26. The members of the board shall serve at the pleasure of the mayor, and any action taken by a majority thereof shall constitute the action of the board. The board shall hear petitions from homeowners dislocated by reason of airport expansion and operations for amounts to be paid in excess of market value of affected property. The board shall establish procedures for the conduct of its business.

Payment of Awards

21690.27. The Board of Airport Commissioners of the City of Los Angeles is directed to pay any sum awarded by the board pursuant to Section 21690.26.

Persons Eligible; Time for Filing Petition; Time for Payment

21690.28. The provisions of this article are available only to persons who own residential property which has been or is being condemned or sold for airport purposes. Petitions for additional compensation may be filed with the board at the same time that condemnation proceedings or acquisition negotiations are initiated; and the board shall pay any sum awarded pursuant to Section 21690.26 within 60 days after condemnation or other acquisition proceedings are completed.

Partial Invalidity

21690.29. If any provision of this article or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the article which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Chapter 5. Proceedings

Investigation, Inquiries, and Hearings

21692. The department, any member, the director, or any officer or employee of the department designated by it may hold investigations, inquiries, and hearings concerning matters covered by this part and the rules and orders of the department, and concerning accidents in aeronautics within this state. Hearings shall be open to the public and, except as provided in Section 21691, shall be held upon such call or notice as the department deems advisable. Each member of the department, the director, and every officer or employee of the department designated by it to hold any inquiry, investigation, or hearing may administer oaths and affirmations, certify to all official acts, issue subpoenas, and order the attendance and testimony of witnesses and the production of papers, books, and documents. If any person fails to comply with any subpoenas or order issued under the authority of this section, the department or its authorized representative may invoke the aid of any court of general jurisdiction. The court may order such person to comply with the requirements of the subpoena or order to give evidence touching the matter in question. Failure to obey the order of the court may be punished by the court as contempt.

Reports of Investigations and Hearings

21693. In order to facilitate the making of investigations by the department in the interest of public safety and promotion of aeronautics, the reports of investigations or hearings or any part of the reports, shall not be admitted in evidence or used for any purpose in any suit, action, or proceeding growing out of any matter referred to in the investigation, hearing, or report, except in case of any suit, action, or proceeding, civil or criminal, instituted by or in behalf of the department or in the name of the state under the provisions of this part or other laws of the state relating to aeronautics. Any member of the department, the director, or any officer or employee of the department shall not be required to testify to any facts ascertained in, or information gained by reason of, his official capacity, nor be required to testify as an expert witness in any suit, action, or proceeding involving any aircraft. Subject to these limitations, the department may make available to appropriate federal, state, and political subdivision agencies information and material developed in the course of its investigations and hearings.

Orders of Department; Contents; Service; Review

21694. Every order of the department requiring performance of certain acts or compliance with certain requirements shall set forth the reasons, state the acts to be done or requirements to be met, and be served upon the person affected either by registered mail or in person. Any person aggrieved by an order of the department may have the action of the department reviewed by the courts in the manner provided by law.

Chapter 6. Airport Planning

California Aviation System Plan

21701. The division, in consultation with transportation planning agencies as designated by the director pursuant to Section 29532 of the Government Code, shall prepare a California Aviation System Plan, which shall include, but not be limited to, every California airport designated in the federal National Plan of Integrated Airport Systems and any other existing or proposed public use airports, as designated by the division.

Elements in Plan

21702. The California Aviation System Plan shall include, but not be limited to, all of the following elements:

- (a) A background and introduction element, which summarizes aviation activity in California and establishes goals and objectives for aviation improvement.
- (b) An air transportation issues element, which addresses issues such as aviation safety, airport noise, airport ground access, transportation systems management, airport financing, airport land use compatibility planning, and institutional relationships.
- (c) A regional plan alternative element, which consists of the aviation elements of the regional transportation plans prepared by each transportation planning agency. This element shall include consideration of regional air transportation matters relating to growth, capacity needs, county activity, airport activity, and systemwide activity in order to evaluate adequately the overall impacts of regional activity in relation to the statewide air transportation system. This element shall propose general aviation and air carrier public use airports for consideration by the commission for funding eligibility under this chapter.
- (d) A state plan alternative element, which includes consideration of statewide air transportation matters relating to growth, including, but not limited to, county activity, airport activity, and systemwide activity in order to evaluate adequately the state aviation system and to designate an adequate number of general aviation and air carrier public use airports for state funding in order to provide a level of air service and safety acceptable to the public.
- (e) A comparative element, which compares and contrasts the regional plan alternative with the state plan alternative, including, but not limited to, airport noise, air quality, toxic waste cleanup, energy, economics, and passengers served.
- (f) A 10-year capital improvement plan for each airport, based on each airport's adopted master plan if the airport has a master plan, approved by the applicable transportation planning agency, and submitted to the division for inclusion in the California Aviation System Plan.
- (g) Any other element deemed appropriate by the division and the transportation planning agencies.
- (h) A summary and conclusion element, which presents the findings and recommended course of action.

Submittal to Commission

21703. The division shall submit the California Aviation System Plan to the commission.

Periodic Revision of Plan

21704. The division, in consultation with the transportation planning agencies, shall biennially revise the capital improvement plan developed pursuant to subdivision (f) of Section 21702, and the division shall submit the revised capital improvement plan to the commission. The division, in consultation with the transportation planning agencies, shall revise all other elements of the California Aviation System Plan every five years, and shall submit the revised system plan to the commission.

Adoption of Revisions by Commission

21705. The commission shall review, hold public hearings on, and, based on these hearings, adopt or revise and adopt as revised, the California Aviation System Plan and its subsequent revisions.

Project Funding Applications

21706. The division shall require that every project submitted for funding from the Aeronautics Account in the State Transportation Fund shall be consistent with the California Aviation System Plan. Applications for funding shall be processed in accordance with the procedures adopted by the commission for processing applications by local entities for projects included in the state transportation improvement program, to the extent those procedures may be applicable. In determining the priorities of projects, the division shall, and the transportation planning agencies may, utilize the methodology adopted by the commission for determining the priorities of projects listed in the aviation element of the state transportation improvement program.

Federal Grant Funds

21707. Any funds necessary to carry out Sections 21701, 21702, and 21704 shall be obtained from federal grants, except for updates of the capital improvement plan and policy elements of the California Aviation System Plan, which may be funded from nonfederal sources.

Division 17. San Diego County Regional Airport Authority

State and Federal Grants

170066. (a) The authority is the only agency in the County of San Diego authorized to receive proceeds from state grants for the purposes of planning, constructing, or making other improvements to a civilian airport.

(b) The authority is the only agency authorized in the County of San Diego to receive proceeds from grants from the federal government, including, but not limited to, the Federal Aviation Administration, for purposes of planning, constructing, or making other improvements to a civilian airport.

(c) The authority shall cooperate with all other airports in the county to further the development of a countywide aviation system. To this end, the authority shall facilitate the pass-through of state and federal grants, without deduction for any cost associated with processing that pass-through, to local airport operators, if those grants are for purposes that are consistent with the aviation element of the regional transportation plan or with an adopted program of projects.
